Kolisi explains how Boks got the job done

Nienabar praises Kolbe’s crucial role

The Springboks earned the right to meet England in Saturday’s Rugby World Cup semifinal, but it required a per-

formance of real grit to edge France 29-28 in a tense quarterfinal in Paris on Sunday. France and SA delivered some scintillating and brutal rugby, with the game on a knife’s edge in the closing minutes. The match did not have the extreme skill level and technical excellence of Saturday’s quarterfinal between the All Blacks and Ireland, but for tension and nerve-jangling suspense it served up a classic.

Pieter-Steph du Toit and Handré Pollard celebrate. /HANNAH PETERS / GETTY IMAGES

Just when it looked like the Springboks would fail to find that extra gear to make up a

six-point deficit, the excellent Eben Etzebeth was as long of stride as he was of desire.

His converted try with 13 minutes to go gave the Boks a one-point lead before Handré Pollard landed a long-range penalty to stretch it to four. Though Thomas Ramos added another penalty to bring the hosts to within a point again, France had no more to offer.

In the Bok pack, Etzebeth, Bongi Mbonambi, Pieter-Steph du Toit and Frans Malherbe played leading roles from the start, while Kwagga Smith and Ox Nché upped the energy and urgency in the second half.

The way the Boks maintained their integrity in defence helped to break French resolve for the 10 minutes after the break that Etzebeth was in the sin bin.

At the back, Cheslin Kolbe proved a thorn in France’s flesh, while centres Damian de Allende and Jesse Kriel were equally effective in attack and defence.

Kolbe’s first-half try had SA delirious, while his charge-down of Ramos’s attempted conversion after Peato Mauvaka’s try proved to be crucial in the final analysis.

“Cheslin’s charge-down, you don’t see that often, somebody chasing a lost cause,” Bok head coach Jacques Nienaber said.

“...the effort the players put in was enormous.”

Captain Siya Kolisi said. “Yeah, I think a lot of questions were asked of us as a group by the French team. The character of the boys stood out.

“We knew how hard they were going to be. They were tough to stop with 15 men, so imagine how hard it was with 14,” Kolisi said about the 10 minutes that Etzebeth found himself in the sideline.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.

- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.

- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.
