MALAJIKA BROTHERS PROVE COMPETITION BREEDS CHAMPIONS

● When brothers are sparring partners, heroes emerge

By **BONGANI MAGASELA**

When individuals interact and challenge each other, they both grow stronger and become more effective.

That is how best to describe the sudden success of the Malajika brothers – Ricardo, 26, and Charlton – who are gym mates at Brian Mitchell Boxing Academy in Edenvale, where Manny Fernandes hones their skills.

Ricardo is the two-weight world IBO champion, and his success is rubbing off on brother Charlton, 24, the reigning junior-bantamweight champion whose belt will be on the line for the third time when he welcomes Filipino Jayson “Smasher” Mama in the headliner of the Golden Gloves tournament at Emperors Palace on August 9.

“Magic Man”, as Ricardo is known, made history in March when he moved the weight down and dethroned flyweight champion Jack “M3” Chauke with a second-round KO at Emperors Palace.

He has since vacated that belt.

The Malajikas spar against each other with no restrictions.

“We bliksem each other,” giggled Ricardo.

Asked if that did not affect their kinship, he said: “We both know it’s a sport, and also that it will help us learn from each other.”

The fifth-born son from a family of seven boys, Ricardo wants to become a multiple-weight world champion.

He idolises Manny “Pac Man” Pacquiao, the Filipino, who is the only eight-division world champion in boxing history.

“The difference is that Pacquiao started at flyweight, and I started at junior-bantamweight,” he said.

Ricardo, who began with Vusi Mtolo in

The Malajika brothers train together at Brian Mitchell Boxing Academy. /Supplied

his corner, said Fernandes has changed them a lot since he began training them last year. “I believe he’s the best,” he said.

Racardo won the junior-bantamweight belt in September 2023 with Mtolo, who

was replaced by Fernandes in January last year.

Fernandes and Ricardo have chalked up two successful defences, and the historic victory against Chauke.

Bela Bela Local Municipality

58 Chris Hani Drive, Bela Bela
Private Bag X 1609, Bela Bela, 0480

Bela-Bela Local Municipality invites suitably qualified candidates to apply for the following position:

MUNICIPAL FINANCE MANAGEMENT INTERNSHIP PROGRAMME (MFMP) (X 3 POSITIONS)

(Two-year contract)

Salary: Between R90000 – R100000. (All-inclusive and dependent on year of internship)

Notice Number: 79/25

Requirements: Grade 12 plus a Bachelor's Degree or National Diploma with majors in Accounting, Economics, Finance, Risk Management and/or Auditing, among others • Computer Literate • Good Communication and Analytical Skills • The candidate must be between the ages of 21 and 35.

Key performance areas: The appointed intern will be given the opportunity to get professional training and work experience programme with the goal of providing high quality training and practical exposure in all aspects of a Municipal Budget and Treasury Office which is governed by the Municipal Finance Management Act, Act 56 of 2003 and the underlying reforms. The programme ends with a qualification in Municipal Finance Management in line with the Municipal Regulations on Minimum Competency Levels, Gazette 29967 of 15 June 2007.

The Municipality reserves the right not to fill the advertised position.

Applications should be submitted on an official application form obtainable from the Municipal Website www.belabela.gov.za/ or Bela-Bela Local Municipality offices and must be accompanied by a comprehensive curriculum vitae, certified copies of academic qualifications, Identity Document and Driver's License. Short-listed candidates will be required to produce original copies of qualifications and identity documents on or before the appointment.

NB: The successful candidate will be subjected to security vetting, required to submit a disclosure of financial interest, and be expected to sign an employment contract and performance agreement. Recommended candidates will be subjected to a competency assessment test.

Correspondences will only be entered into with short-listed candidates. Applicants will be penalized for canvassing. Please forward all applications to: The Municipal Manager, Bela-Bela Local Municipality, Private Bag X1609, Bela-Bela 0480, or applications may be hand delivered at the Municipal Offices, Main Building, Records Office (1st Floor) 57 Chris Hani Drive, Bela-Bela. **Faxed or e-mailed applications will not be considered.**

Enquiries must be directed to Ms. M Mathe at 014 736 8000 during office hours.

Closing date: 01 AUGUST 2025, 16H00.

REQUESTS TO TENDER

Tshwane University of Technology in collaboration with the Purchasing Consortium Southern Africa hereby invites qualified, competent, and suitable service providers to submit bids as follows:

	Bid No:	Project Description	Briefing Session	Tender Document Related Queries	Closing Date
1	TR 34-2025	Computer Skills Software for Various Departments across the Tshwane University of Technology	Non-Compulsory Briefing Session will be held on Tuesday, 22 July 2025 at 11:00 Venue: Ms Microsoft Teams	Email Ms. Boipelo Setou at Boipelo.Setou@purcosa.co.za and copy Ms Lesego Mabidietsa at MabidietsaL@tut.ac.za	Friday, 1st August 2025 at 23:59 (Online submission via the PURCO SA website)

All potential tenderers are to register to attend the non-compulsory information session. Register at www.purcosa.co.za/tenders no later than **10h00 on Monday, 21st of July 2025**. A confirmation email will be sent to tenderers.

PURCHASING OF TENDER DOCUMENTS

Tender documents can be purchased at a non-refundable fee of R 1,150.00 (VAT included) on the PURCO SA website and will be **available on Friday, 04th of July 2025 but will only be obtainable until 16:00 on Friday, 25th July 2025** – no tender documents will be available for purchase after this date.

The steps below should be followed for LOGIN OR REGISTER on the PURCO SA website:

- Navigate to <https://purcosa.co.za>
- Click on the 'Login or Register' button and select the appropriate option
- Not registered on the website?
 - Click 'Register here'
 - Complete the form and click 'Create new account'
 - Wait for the Account details email from PURCO SA. Check your spam filter if necessary.
 - Click on the link in the email to login to the PURCO SA website and add a password.

The steps below should be followed to purchase the tender document on the PURCO SA website:

- Under the Supplier Hub menu click on 'Open Tenders'
- Select the tender and click on 'View'
- Click on the 'Buy now' button
 - You will be redirected to our payment gateway (Payfast) to make payment.
 - If you encounter problems on the Payfast pages go to www.payfast.co.za/contact for help.
 - When your payment has been processed you will be automatically redirected back the PURCO SA Checkout page where you will find your purchased tender document/s

Further information regarding the **electronic submission of tenders** will be shared at the Information Sessions and will be detailed in the tender documents.

TUT reserves the right to award this tender to an empowerment company or may award this tender on condition that a joint venture with an empowerment company is formed. This will be added to the criteria when evaluating the tenders.

The Tshwane University of Technology (TUT) is committed to broad-based black economic empowerment. We strive to comply with the provisions of all relevant legislation. Details are included in the tender document.

All shortlisted Tenderers will be subjected to vetting.

TUT reserves the right not to accept the lowest or any tender in part or in whole without furnishing reasons.

DECLARATION FOR PROCUREMENT ABOVE R10 MILLION (VAT INCLUDED)

For all procurement expected to exceed R10 million (VAT included), bidders must complete the following questionnaire:

1 Are you by law required to prepare annual financial statements for auditing? **YES / NO**

1.1 If yes, submit audited annual financial statements for the past three years or since the date of establishment if established during the past three years.

.....

.....

YES / NO

2 Do you have any outstanding undisputed commitments for municipal services towards a municipality or any other service provider in respect of which payment is overdue for more than 30 days?

2.1 If no, this serves to certify that the bidder has no undisputed commitments for municipal services towards a municipality or other service provider in respect of which payment is overdue for more than 30 days.

2.2 If yes, provide particulars.

.....

.....

.....

.....

3 Has any contract been awarded to you by an organ of state during the past five years, including particulars of any material non-compliance or dispute concerning the execution of such contract? **YES / NO**

3.1 If yes, furnish particulars

.....

4. Will any portion of goods or services be sourced from outside the Republic, and, if so, what portion and whether any portion of payment from the municipality / municipal entity is expected to be transferred out of the Republic? **YES / NO**

4.1 If yes, furnish particulars

PROJECT SPECIFICATION

1. SCOPE

This specification covers the requirements for the operation and maintenance of the Makhado New Waste landfill site. It gives a general description of the site and the facilities available and covers the day to day requirements for receiving, depositing, spreading, compacting and covering waste and the maintenance of the facilities on the site to ensure an effective operation in accordance with the conditions of the operating waste license issued therefore (See attached License)).

2. INTERPRETATION

2.1 Definitions

Builder's rubble	:	Pieces of masonry, concrete, etc, resulting from construction, repair and demolition operations, without reinforcing steel, uncontaminated with general waste and with a maximum particle size of 300mm.
Bulky waste	:	Items, such as motor car bodies, fridges, etc., whose large size precludes or complicates their handling by normal collection, processing or disposal methods.
Cell	:	A body of waste which has been placed between waste berms covered with liners or soil, soil berms or builder's rubble berms compacted and enclosed by cover material.
Clean greens	:	Compostable waste derived from garden waste (gardens and parks), which has not been mixed with other waste categories.
Commercial waste	:	Solid waste generated by shops, offices and other activities not involved in manufacture.

Landfill Management Committee (LMC)

:	Committee consisting of representatives of the Limpopo Department of Economic Development, Environment and Tourism, Vhembe District Municipality, Makhado Local Municipality and operating contractor responsible for maintenance of the operational standard and advising on tariff structures.
---	--

Community Monitoring Committee (CMC)

:	A Committee comprising interested and affected parties, who together with the Management Committee shall act as a Monitoring Committee as contemplated in terms of Section 11.2 of the "Minimum Requirements" for Waste Disposal By Landfill.
---	---

Compaction density	:	The mass of a body of solid waste divided by the volume (after compaction) occupied by that same body of waste.
Compaction ratio	:	The ratio of the volume of loose waste to the volume of the same waste after placement and compaction.
Compost	:	Organic waste that has undergone controlled microbial degradation, to produce a contaminant/nuisance free product of potential value as a soil conditioner.
Contractor's enclosure	:	An area allocated to the contractor for his/her own use in connection with the contract including the storage of equipment and plant.
Cover material	:	Soil or other suitable material that is used for enclosing a body of compacted waste but does not include builder's rubble.
Daily cell	:	As with "cell", with the size being determined by the mass of waste disposed of in a single day, as well as by the number of vehicles delivering waste.
Domestic waste	:	Solid waste that originates in a residential environment.
Employer	:	The employer will be the Makhado Municipality.
Engineer	:	A suitably qualified person who may from time to time be appointed by the employer to act on his/her behalf.
Financial Manager	:	Means the duly appointed natural or juristic person or partnership or any other financial expert appointed from time to time by the employer, to act on their behalf in regard to certain <u>financial</u> aspects of the administration and execution of this contract.
Garden waste	:	Plant clippings, pruning and other discarded material from gardens in a municipal area.
Hazardous waste	:	An inorganic or organic element or compound that, because of its toxicological, physical, chemical or persistency properties, may exercise detrimental acute or chronic impacts on human health and the environment.
Industrial waste	:	Non-toxic and non-hazardous solid waste that result from industrial processes and manufacturing.
Landfill gas	:	Typically malodorous gases generated during the decomposition of waste.
Leachate	:	The contaminated aqueous liquid which results when water percolates through decomposing waste, and which may migrate from a landfill site

and represent a pollution threat.

Lift	:	A completed layer of one cell in height and usually comprising numerous adjacent cells.
Methane gas	:	A major component of landfill gas generated in the methanogenic phase of waste composition. Where methane concentrations reach between 5% and 15% of atmospheric gas, landfill gas represents an explosion hazard, as well as a potential health risk.
Notifiable waste	:	Waste, whether dry or liquid, that is potentially toxic or hazardous, and that requires special handling to avoid illness or injury to persons or damage to property (also refer to “Minimum Requirements for Waste Disposal by Landfill, 1998”).
Radioactive waste	:	Waste with a specific activity of more than 74 Becquerel’s per g (Bq/g) and total activity more than 3,7 kBq(0,1uCi). Disposal of radioactive wastes in a landfill is prohibited.
Safe disposal	:	The process whereby spoilt foodstuff or condemned products may be disposed of on the landfill under supervision of the health inspector and/or site supervisor.
Salvaging	:	The controlled and/or uncontrolled process of recovering any material, gas, compost, or other matter from the waste for benefit.
Sanitary landfill	:	A method of disposing of refuse on land without causing nuisances or hazards to public health or safety, by utilizing the principles of engineering to confine the refuse to the smallest practical area, to reduce it to the smallest practical volume, and to cover it with a layer of soil or other suitable material at the conclusion of each day's operations, or at such more frequent intervals as may be deemed necessary.
Solid waste	:	Useless, unwanted or discarded material with insufficient moisture content to represent free-flowing sludge or to generate free liquid.
Ton	:	1 000kg.
Institutional, Medical waste	:	Solid waste originating from educational, hospital, health care or research facilities.
Waste to cover ratio	:	The ratio of volume of compacted waste to volume of cover material.
Working face	:	That portion of the disposal site where waste is discharged before being compacted and enclosed by cover material.

3. DETAILS OF THE SITE

3.1 **General description**

In general the work included in this Contract is the operation and maintenance of compacted waste cells and all infrastructures within Makhado New Landfill site for the contract period.

The appointed service provider must comply with all conditions in the landfill permit (a copy attached)

Access to the site will be given to the contractor to be appointed under this Contract for the operation and maintenance of the landfill site to be used for the disposal of solid and non-hazardous wastes (also referred to as General Waste).

This facility will mainly receive waste from the Makhado Local Municipality area as well as private industries or businesses. During the contract period it may happen that the facility will also serve other local authorities. The waste will be transported onto site by the relevant local authorities as well as by the general public and private contractors.

3.2 **Description of site and access**

The Makhado New landfill site is situated on the western side of Tshikota Location just next to the Makhado Air strip, about seven kilometers southwest of Louis Trichardt Town CBD. The site is located on Portion 1 of Farm Rietvlei 276-LS along a gravel road to Makhado shooting range. The site is relatively flat area, but generally drains towards the south/southeast. Several non-perennial streams drain from the mountain range behind and to the south of the site, which flow towards the Litshovhu River several kilometers to the southwest. The approximate elevation of the site is 900m above Mean Sea Level. The site is approximately 3 km south of Zoutpansberg Mountain.

The landfill site occupies an area of about 20 ha and comprises of the following infrastructure: 2.3m high concrete palisade, access road; site entrance boards; guard room, weighbridge and weighbridge control room; site manager office, ablutions, municipal power supply, internal site roads; recycling shed (waste sorting) area; and landfill cells (to be developed in phases) and leachate collection dam.

3.3 **Site facilities available**

The following facilities will be made available on the site for use by the contractor at no cost:

a) Permanent Buildings

Gate Control House:	a building with built-in desk and boom control panel including a toilet and hand basin.
---------------------	---

Weighbridge Control Room:	a building with built-in desk, weighbridge computer
---------------------------	---

system (with printer), toilet and basin.

Site office:

- landfill supervisor office
- ladies toilet and wash basin
- gents toilet, wash basin and shower
- toilet, wash basin and shower for site supervisor

Ablution facilities:

- male ablutions with showers, toilets, and hand basins
- female ablutions with shower, toilet and hand basin

Recycling building:

- steel portal frame structure with roof and enclosed sides

Note: The buildings have a septic tank system. The contractor will be responsible for the maintenance and care of the sewage disposal system. Contractor must provide proof of disposal at a registered facility. The contractor shall further make provision for temporary/mobile ablution facilities in cases of dysfunctional of main ablutions

b. Temporary buildings

The contractor will be entitled, subject to the municipality's approval and that of the employer to erect additional temporary or permanent buildings on the site such as plant shelters, should these be required by him. On termination of the contract, the employer shall be given the option of purchasing the additional buildings and structures so erected and failing the exercise of such option, the contractor shall demolish and remove the buildings or structures at his/her own cost and return the site in the condition it was prior to such buildings or structures being erected.

c. Infrastructure enclosure

The Contractor will be entitled to erect secondary fencing around the above-mentioned infrastructure. This fencing would be intended to provide additional security for overnight parking of the contractor's vehicles and plant used in the operation of the site. The Contractor may also elect to erect high mast lighting in this area in order to provide improved security.

The contractor may erect or install overhead fuel storage tanks, in a bunded wall area to be agreed with the Engineer, subject to it meeting the safety and fire requirements stipulated in the Makhado Municipality by-laws. The servicing and maintenance of the contractor's vehicles and plant shall be carried out within the contractors shed and uncontrolled oil spillage will not be permitted.

d. Access roads

The main access, internal road, parking area in front of the office block, as well as the road to

the waste cell is surfaced with gravel.

NB: Contractor must keep the access and paved areas clean at all times

f. Wheel wash

No wheel wash is provided.

g. Access control gates

Manually operated security gates and booms are provided at the incoming road and outgoing road adjacent to the guardhouse and are used to control the movement of vehicles during normal operating hours. After hours the entrance is closed with security gates.

h. Weighbridge

The contractor will be required to operate this facility, which consists of an 18m-steeldeck digital load cells operated. Adequately trained staff is to be provided by the contractor to operate the weighbridge and the computer system in accordance with the contract.

General maintenance of the weighbridge is the responsibility of the contractor. In case the weighbridge or one of the equipment thereof is out of order, the contractor shall repair such and submit an invoice to the municipality for payment. The contractor shall also be responsible to calibrate the weighbridge scales once per annum and obtain the necessary certification. Verification after any alteration to the weighbridge will also be the responsibility of the contractor.

i. Computers

The following is available and should be maintained and insured by the contractor:

One computer with a printer and software for recording and printing of weighbridge slips are set up in the weighbridge control room. The contractor will be required to operate the computer to record all waste entering the site (e.g. category, account details, vehicle details etc). All printers and consumables (e.g. double sheet continuous (roll) paper, printer cartridges, compact disks, files etc) used for recording and processing all transactions are to be supplied and maintained by the contractor. Adequately trained staff is to be provided by the contractor to operate the computer system in accordance with the contract.

Maintenance of all software required (including weighbridge software upgrading by supplier) is the responsibility of the Contractor. Software license fees are also payable by Contractor (the database software is owned by the Client).

j. Security

The landfill site and infrastructure is fenced with a 2.3m high concrete palisade fence. The contractor is required to keep the concrete palisade fences and all other internal fences in good

order and to repair any damage caused to it.

The contractor must engage a SIRA (Security Industry Regulating Authority) registered Security Company, to perform security function on a 24 hour basis. Should the contractor require further security measures to protect equipment and property, he/she may take such measures at his/her own cost.

Provision is to be made for the fact that no unauthorised entry is allowed.

In addition to the above, one dedicated security guard must be provided for the sole purpose of collecting signed weighbridge slips from the drivers of the waste trucks. This security guard must also ensure that no vehicle leave the site without the driver retaining a copy of the signed weighbridge slip.

k. Water supply

An on-site borehole and elevated storage tank have been equipped to supply the required potable water for the contractor for his/her domestic use as well as use in the operation of the waste disposal site (e.g. dust control, irrigation and vehicle washing). Any additional water pipe reticulation required on site by the contractor, over and above that already provided, shall be constructed only with the engineers approval and at the contractor's own cost.

l. Electricity supply

A three phase, 380volt metered electricity supply is on site. The cost of electricity used as well as any other proportional basic charges raised shall be the responsibility of the Municipality.

m. Housing of employees

No facilities are available and the contractor will not be permitted to house any of his/her employees on the site.

n. Office Administration

The Contractor shall provide equipments such as computer, printers, camera, filing cabinets and stationery necessary for day to day operation of the site.

4. PLANT

All plant used on the site shall be suitable for the application and prevailing site conditions, of adequate rated capacity, in good working condition, and shall be so designed and constructed as to cause a minimum of dust, noise and air pollution. The plant shall be operated by properly qualified and experienced operators. In the event of a breakdown occurring, the contractor shall be capable of calling upon such **back-up plant within 12 hours as is necessary to ensure that the proper operation and maintenance of the site is not placed in jeopardy.**

The turnaround time for tyres repairs is 2 hours. The contractor shall keep at site at least two spare tyres at

any given time.

As a minimum, the Contractor shall be required to provide the following plant for dedicated use on the site:

- 1. 26 or more ton landfill compactor**
 - 2. 1 x four wheel drive tractor-loader-backhoe (TLB).**
 - 3. Tipper truck double diff (minimum 10m³).**
 - 4. 1 x Water Tanker, or Water Cat 2 000 litre minimum capacity.**
- All plants are to be replaced within a 6 hour period if required by the Employer and not to be older than 6 years.
 - Registration documents/ certificates for each equipment must be attached/submitted
 - **In case required equipment are to be hired, lease agreement for the entire period of the tender must be attached**

5. OPERATION AND MAINTENANCE

5.1 Source of waste

The Makhado New landfill site is a municipal facility for the Makhado Local Municipality, although some other industries, private waste removal companies and resident from the surrounding area will also make use of the site.

5.2 Other sources

Should it be to the employer's benefit, the contractor may dispose of waste at the site that originates from sources other than those indicated in Clause 5.1. In such an event, the employer reserves the right to restrict the quantity of waste received from such sources. For the duration of the contract and any extensions thereto, it will be the contractor's responsibility to make known to the employer all and any interest he/she, and/or any of his/her personnel, may have in any company or commercial waste enterprise which may result in waste being disposed of at the site. In addition, should this position change, the contractor will be obliged to inform the employer thereof within 14 days of any such change.

Any obvious abuse of this entitlement will result in the immediate cancellation thereof.

5.3 Waste quantities

A quantity of waste disposed by the municipality, general public and private contractors is estimated at 5,000 to 8,000 tons per month for all waste categories.

The employer shall not be bound to these quantities.

Because of unpredictable growth taking place, however, the actual quantities may vary considerably from the estimated quantities. Furthermore, the Makhado Local Municipality reserves the right to

vary its waste disposal strategy, which will affect the waste quantities involved. The contractor will be responsible for measuring the monthly mass in accordance with Clause 5.5.

5.4 Waste types

The site is permitted as a general landfill site (Classification GMB⁻) and, subject to the exceptions indicated below; the contractor will be required to handle all, non-hazardous incoming wastes including:

- domestic waste
- garden waste
- clean soil & builder's rubble
- non-hazardous dry industrial waste
- commercial waste
- bulky waste
- polymeric waste
- dead animals
- spoilt foodstuffs destined for safe disposal

No drums displaying the hazardous chemical sign, whether closed or open, will be allowed for disposal on site.

In the interests of environmental protection and complying with the site waste license requirements, the contractor will be required to record all relevant details of any person, vehicle or operator who attempts to bring any such unacceptable waste onto the site. The vehicle owner, and employer should be informed accordingly and the vehicle used to transport such waste, will immediately be blacklisted from the waste disposal facility. The contractor shall also advise the driver of such a vehicle of the locality of the nearest facility where such waste can be safely disposed of.

A container for public disposal of small quantities of domestic hazardous waste must be provided. The operating contractor will be responsible for the management of this facility, as well as for the safe disposal thereof and related cost.

5.5 Charges for disposal

The schedule of rates for disposal of waste is approved by the Municipality and is announced annually to coincide with their financial year. These tariffs will be updated on the computer software annually by the Financial Manager and the contractor shall be expected to adhere strictly to the prescribed schedule. The contractor will be responsible to maintain the notice board with the applicable tariffs erected at the weighbridge control house. **No cash** is handled on site and all users of the waste disposal facility, except private residents disposing of waste loads up to 1 000 kg, will receive monthly invoices from the Financial Manager. The contractor shall on a monthly basis submit report to the financial manager for purpose of issuing invoices.

a. Vehicles under contract to the employer.

As and when required, the Financial Manager will be furnished, on the first day of the month, with a list of registration numbers of the vehicles under direct or indirect control of the employer. Vehicles under contract must submit a letter at the weighbridge indicating the following:

- the contract number,
- contract period,
- applicable service delivery area.

b. Private vehicles from commercial or business sources. (Account holders)

These users will be required to open an account on site or with the Makhado Local Municipality's Financial Manager. The latter will furnish the Contractor with details of private users, which have a valid account as and when the accounts are opened. All businesses will be charged regardless of the waste tonnages disposed.

c. Private residents

Residents who deliver their waste in private vehicles or trailers, having a payload not exceeding 1 000 kg, will not be charged. Should the waste exceed this weight, the vehicle owner will need to open an account and be billed for the full load. The employer reserves the right to revise the conditions pertaining to this benefit at any stage of the contract.

The charge will be based on the mass of waste being disposed of as determined by the weighbridges provided, and a rate per ton determined by the employer. The invoicing for the above mentioned amount will be undertaken by the Financial Manager. The employer also reserves the right to vary the rate for disposal from time to time as he/she considers necessary, but not more than once in any six month period.

5.6 **Operating Hours**

The contractor will be responsible for operating the site every day, including Saturdays, Sundays and Public Holidays with the exception of Christmas day.

Unless otherwise negotiated, operating times for each day shall be as follows:

- Mon to Fri : Open to public from 07:00 to 16:00
Site operation from 07:00 to 17:00
- Sat and Sun & Public Holidays : Open to public from 08:00 to 13:00
Site operation from 07:00 to 14:00
- In no case should the operation continue later than 17:00 unless otherwise requested by the employer.

Should it, however, be established that the above is unsuitable, then with the approval of the employer, the working hours may be altered accordingly and recorded in writing and on the

notice board by the contractor.

5.7 Use of site after hours

As a result of shift work, which includes after hours waste collection, waste may be disposed of by such local authorities until 22:00 but only by special arrangement. Although a suitable qualified person will be required to enter the transaction on the weighbridge computer, **the operating contractor will not be expected to compact and cover the limited number of loads that will be disposed of after hours**. All other waste is however to be compacted and covered by the end of each working day.

For any waste loads other than those referred to above, prior arrangements and the employer approval will be required for the site to be opened outside of the stated operating hours.

5.8 Contractors site establishment

The contractor will have stated in the data schedules at the time of bidding, the number, designation and qualifications of all staff to be employed, and the number and description of each of the various types of plant and equipment to be utilised on the site for the purpose of executing the contract. The contractor will be permitted to vary this establishment during the course of the contract only after written application has been made to and written permission received from the municipality. The contractor shall ensure that the employer is, at all times, in possession of an up to date register of all staff, labour, plant and equipment employed on the site. Any deviation from the provisions of this Clause, especially to the removal of plant and equipment without prior approval, will be regarded in a serious light.

5.9 Management of the gate control guardhouse and weighbridge control room (weighbridge)

For the full duration of the contract, the contractor shall provide at least one competent and reliable person to manage the gate control guardhouse and weighbridge control room full time during normal working hours. The responsibilities of these personnel shall *inter alia* include:

- access control according to specified guidelines
- identification and diversion of potential hazardous waste loads
- data capture at the weighbridge control room
- operation of the weighbridge
- verify signing of weighbridge slips and return slips to the contractors office
- opening of accounts on site and verification of customer data

As a minimum requirement, the contractor must deliver proof that the two persons have attended a special course dealing specifically with the identification of potential hazardous waste and have been trained in the verification of weighbridge slips and correct account information supplied by the customer.

5.10 Site supervisor

The contractor shall provide a **full-time site supervisor** to manage the site with at least 1 year

experience on a G:M:B⁻ class site. The experience and qualifications of the supervisor shall comply with the “Minimum Requirements for Waste Disposal by Landfill, 1998”, as issued by the Department of Water Affairs and Forestry.

The site supervisor must be contactable 24 hours a day in the event of any emergencies or serious problems that may arise on site.

NB. Pre medical Surveillance must be conducted to all employees before starting to work and certificates thereof must submitted to the municipality

Regular medical surveillance, at least once for six months period should be done to all employees and certificates thereof should be filed and copies to be submitted to the municipality

The service provider to open and keep health file

5.11 Preference to users

The contractor must at all time show equal respect and considerations to all site users and under no circumstances may he/she treat any user preferentially. This Clause has particular reference to the use of the site by vehicles belonging to a company or enterprise in which the contractor may have a direct or indirect interest.

5.12 Meetings and site inspections

During the execution of the contract, the contractor, the employer, and other operators shall meet at approximately monthly intervals, arrangements for the O&M Landfill Management Committee (LMC) meeting being made by the /employer. In addition, meetings with the Community Monitoring Committee (CMC) will also be held at approximately quarterly intervals.

The contractor shall ensure that a member of his/her staff, who is sufficiently senior to be able to make operating decisions and commitments, as well as being familiar with the operation of the disposal site, is always in attendance at these meetings.

The contractor shall provide furniture for use in the boardroom and maintain a diary of meetings scheduled. The minimum furniture required is a boardroom table, 15 (fifteen) chairs, white board and storage cabinet. The furniture shall remain the property of the municipality at the end of the contract.

The meetings will be held to discuss all and any matters relating to the operation of the site, and to up-date and review the overall plan of operation. Decisions made, minuted and agreed upon at these meetings will be binding on the parties. It is, however, to be noted that the O&M Landfill Management Committee (LMC) does not have executive powers and that decisions affecting the Makhado Local Municipality need to be approved by Council.

Periodic (initially monthly) site inspections or audits will be undertaken by external auditors appointed by the employer. During this exercise a specially designed proforma audit checklist will be filled out, which will numerically assess important aspects of the operation. This, together with appropriate recommendations, will be submitted to both the municipality and the

contractor. These inspections may or may not be conducted in conjunction with the contractor at the monthly meetings. The frequency of meetings and audits will be increased if operational standards are not acceptable. At the discretion of the employer, such periodic site inspections can later be undertaken quarterly.

Any member of the LMC or the CMC will have unimpeded access to the site, provided that they first report to security upon entry.

Provision must be made for a quarterly financial meeting with the Client, the Financial Manager and the Software Manager at the client's office. The contractor shall be cost related to such meetings

5.13 Salvage rights

Sorting or recovery of other recyclable waste will only be done by an already appointed recycling company under a controlled conditions at the recycling yard area.

The appointed company which is Matongoni (Pty) Ltd will do materials recovering, sorting and any other operation of a similar nature, but excludes composting and methane gas.

5.14 Operation of the site

The contractor shall operate the landfill in accordance with the landfill permit and other agreements over and above the license condition agreed to between the contractor and the municipality

The operation of the site by the contractor will involve the following major functions:

- access to the site and access control
- operation of weighbridge system and generation of reports
- maintenance of access roads and controlling of traffic within the site
- waste deposition and compaction
- provision and placement of cover material
- control of nuisances
- provision and maintenance of fire breaks
- construction and maintenance of site drainage
- leachate control, pumping of all sumps (leachate and sub-soil) and leachate dams
- record keeping
- topographical surveys
- general maintenance of grass and groundwater monitoring boreholes
- repair and or replace any damaged infrastructure

The principles regarding the above are discussed below, with a view to providing the prospective contractor with a clear concept of what is expected of him/her and also to providing him/her with guidelines for drawing up his/her proposed action plan. In addition to the major functions dealt with below, numerous other aspects are included for information:

- a. Access to the site and access control

The Contractor shall be responsible for keeping the entrance to the site via the main access road in a clean and neat state. This includes the removal of all mud and refuse deposited on the road in the vicinity of the site entrance (particularly during wet weather) and the picking up of all windblown or scattered refuse and litter emanating from the waste delivery and disposal operation. This activity must be performed daily. The section of road to be cleaned stretches from the entrance of the site to 700m.

Access control shall at all times be performed in a responsible manner, thus ensuring that only vehicles with waste loads permitted in accordance with the permit conditions and the “Minimum Requirements for Waste Disposal by Landfill, 1998”, will be allowed on site.

Records of all vehicles entering the sit shall be maintained at all times

b. Operation of weighbridge system and generation of reports

One by 18m steel-deck a weighbridge has been be installed as part of the initial development of the site. This system is used to record the mass of all waste loads delivered to site. In order to ensure that no financial data is lost as a result of damage to the weighbridge computers or fire in the weighbridge control room, the operating contractor will be expected to make daily backup files of all data onto computer discs, which is to be stored in a safe place, other than the weighbridge control room. The digital load cells must be maintained and verification of the system will be required after any maintenance has been performed.

Apart from the operating contractor’s responsibility to make a backup of daily transactions, the Financial Manager will on monthly intervals draw data from the computers for processing and mailing of invoices to the various site users.

Although the bulk of the financial reports will be generated by the Financial Manager, the facility does exists for the operating contractor to generate daily, weekly and monthly reports on site. Any such reports are to be generated, if so requested by the employer or the financial manager.

The weighbridge software is owned by the employer, however upgrading and maintenance of software will be the responsibility of the contractor. Therefore the contractor needs to enter into a maintenance agreement with the software supplier for the contract period.

c. Maintenance of access roads and controlling of traffic within the site

The contractor shall construct and maintain gravel/building rubble access roads to the disposal area on site as and when required during the contract period. The roads must be:

- usable in both wet and dry conditions.
- comfortably able to accommodate two large passing vehicles.

- sufficiently smooth and even without potholes to enable large loaded vehicles to travel at 20km/h, without damage or discomfort.
- flat enough to enable vehicles to stop and move off without undue difficulty and slipping. All gradients shall not be steeper than 1 in 10 on downhill and 1 in 15 for uphill.
- watered during dry weather for dust suppression and have sufficient surface drainage for wet weather.

The road along the perimeter of the fence must be maintained, at all times, for maintenance and security patrol purposes.

Clear and easily understandable speed limit, traffic control and direction signs must be provided from the site entrance to the off-loading point at the working face.

Paved areas in and around the site must be swept and kept clean of excessive mud and windblown waste (using brooms or mechanical equipment, where appropriate). Adequate resources must be utilised to perform this duty and will be for the Contractor's cost.

d. Waste deposition and compaction

Waste deposition will be conducted in adherence with the proven sanitary landfill principles (as per "Minimum Requirements for Waste Disposal by Landfill, 1998") of spreading, compacting and daily covering of waste. To achieve this, a single cell shall be constructed and enclosed by cover material at the end of each operating day. In order to expose as little waste as possible to rainfall and the environment and to afford the best compaction, waste cells will be as narrow as conditions permit. The size of the cell will be determined by the mass of waste and number of vehicles accommodated during the operating day.

Waste shall be deposited at the toe of the cell and worked upwards by spreading in approximately 250 mm thick layers, and compacted by using three passes of a landfill compactor (or appropriate equipment as agreed with the Engineer) per layer of waste to a density of at least 750kg/m³. Once compacted, the height of a cell will not exceed 2,5 m in any situation.

In order to maximize compaction effort, the slope of the working face shall be at an appropriate angle of between 1:3 and 1:4 to enable the plant to spread and compact the waste deposited at the toe of the cell, upwards upon the working face. The slope shall, however, not be so steep as to induce slipping of the driving wheels or tracks of the plant. Slopes that are too flat, on the other hand, result in excessive use of daily cover.

- *The upper horizontal surface of a cell shall be finished such that it has a fall of at least 3% and not more than 5%, away from the working face. This will ensure that*

water on the cell floor will flow away from the working face, instead of building up against the working face, thus resulting in water infiltrating the waste.

Cover material shall be deposited above the cell at the top of the ramp so as to enable exposed refuse to be covered as soon as required and not necessarily only at the end of the operating day.

At the end of an operating day all waste must be contained within the cell. The entire waste surface area shall then be enclosed by cover material having a minimum compacted thickness of 150mm and a maximum compacted thickness of 250mm above the mean surface of the waste. Intermediate cover, in areas not utilised for an extended period of time, shall be placed at a thickness of 300 mm. Builder's rubble may not be used as cover material, except for the preparation of wet weather cells, or with permission from the employer/engineer.

The finished cover surface shall have a minimum slope of **3% and a maximum slope of 5%** and shall be sufficiently uniform to ensure that runoff is encouraged and that the ponding of water cannot take place.

In order to maintain the required surface gradients, level profile boards shall be erected and used for finishing off of each cell.

As soon as possible after completion of a lift to the final finished profile, and upon approval by the engineer, the contractor shall construct the final cover as detailed in the approved rehabilitation plan for the site, which will be in accordance to "Minimum Requirements for Waste Disposal by Landfill, 1998".

- Manouvering space at working face

Space must be available at the working face to enable vehicles to manouver and reverse without causing excessive congestion. A minimum cell width determined by the number of vehicles disposing simultaneously must be maintained to enable vehicles to work alongside each other, while the waste is compacted. In order to avoid overturning of vehicles, the working face area must also be located and graded so that the vehicles operate on level ground.

- Animal carcasses

Animal carcasses are to be disposed of at the toe of the working face. The carcass must be covered immediately by disposing the next load of waste onto the carcasses, allowing for a minimum of 0,75m of waste and cover material. The contractor shall pay special attention to ensuring that the whole carcass is covered, with no protrusions of feet/hooves, tails, heads/horns etc. Notwithstanding the above, stricter regulations may be enforced by the Environmental Health unit within Makhado Municipality.

- Spoilt foodstuff / Liquor / Beverages

Spoilt foodstuffs of condemned products may be disposed of on the landfill by the

method of Safe Disposal. The foodstuff/liquor must be disposed of at the toe of the working face where after it must immediately be destroyed beneath the compactor and covered by disposing the next load of waste onto the foodstuff, allowing for a minimum of 0,75m of waste and cover material. Extreme care should be taken that none of these foods/liquor/beverages are salvaged by any of the vehicle drivers or operating staff. Notwithstanding the above, stricter regulations may be enforced by regulatory authorities concerned.

Allowance for safe disposal, by appointment, shall be seven days a week.

- Bulky waste

The contractor shall reduce the volume of items of bulky waste, as far as is practical, by the use of his/her plant.

- Wet weather

Vehicles may become stuck in the mud when the site is wet. In view of this, the contractor shall ensure that temporary access roads are passable in most situations, with a suitable contingency plan available for continuing the operation in the extreme situation where the access roads are impassable.

A wet weather cell on the main disposal site shall be kept available which has a surface of coarse well drained material, such as builder's rubble or coarse ash, which can be used as the disposal area when conditions become too wet in other areas. A wet weather cell to accommodate at least one week's waste during adverse weather conditions must be maintained.

- Vehicles stuck on site

The contractor shall have available on site at all times (during normal operating hours) heavy-duty towropes or tow bars, and he/she shall assist any vehicle that becomes stuck on the Site with minimal delay. Stuck vehicles must be towed out and under no circumstances may they be pushed out.

The contractor will be held responsible for the cost of repairs to any vehicle that has been damaged due to being pushed instead of towed. The employer also reserves the right to apply a penalty should vehicles be pushed out.

- e. Provision and placement of cover

Suitable sources of cover material include:

- Material excavated from existing and future disposal cells, which has been stockpiled. A free haul of 500 m will apply under normal circumstances for the cover material to be transported from the excavation area to the disposal cells.
- Gravel materials inside the landfill site yard are available for use as cover material.

- Building rubble, ash, soil and other inert material suitable for covering the waste may be delivered to the site. This material is also to be utilised for constructing, maintaining and repairing of the site roads and berms within the site;

Note: Excavations for cover material, in future cells, should be done according to predetermined dimensions and side slopes, in order to facilitate the construction of liners without the need to undertake excessive cutting and filling operations. It is required to construct the liners in such a way, that the respective cells will be free draining towards a predetermined low point, from where liquids can be extracted at various times of the landfill operation. In order to assist the excavation plant operator, it is suggested that level profile boards be used to indicate the angle at which side slopes are to be excavated.

Sufficient material for cell building and refuse covering on a daily basis should be ensured by the contractor. Furthermore, a strategically placed stockpile of cover material, sufficient for three working days operation, should always be maintained.

f. Control of nuisances

The contractor shall take all reasonable measures to operate the site so as to reduce and, where possible, prevent nuisances such as:

- Odour - by applying sanitary landfill procedures for compaction and covering, as well as the removal and treatment of leachate exposed to the atmosphere. Also by spraying odour control chemicals as and when required.
- Dust – dust suppression by means of watering.
- Flies and rodents - by applying sanitary landfill procedures of compaction and covering, as well as by setting adequate fly traps, and placing fly bait at the working face, composting area, etc.
- Noise - by ensuring that all plant silencers, etc. are in good working order and by limiting the operations to the prescribed hours.
- Windblown litter - by applying sanitary landfill procedures of compaction and covering, as well as using litter catch fences where required and picking up the litter which has been scattered in the area. Adequate litter pickers should be deployed for litter picking on a daily basis.
- **No scavenging shall be allowed on the working face.**

g. Construction and maintenance of site drainage and leachate control

The contractor shall prevent undue contact between waste and storm-water, so as to minimise the volume of contaminated run-off and leachate formed. Two drainage

systems are accordingly, required to be operated and maintained during the course of the contract; one for clean storm-water and uncontaminated run-off from the rehabilitated areas, and the other for contaminated storm-water and leachate extracted from the waste body which must be pumped/drained into a containment pond.

Uncontaminated storm-water:

A system of berms and cut-off drains is constructed around the perimeter of the site to prevent clean water from entering the working area. The object of the drainage system is to divert clean storm-water run-off around one or both sides of the waste body. Once portions of the landfill have been rehabilitated, such runoff will be classified as unpolluted.

The continued extension and maintenance of this system by the contractor to keep it free-draining, is required throughout the contract and the contractor is required to state in his/her action plan, the methods he/she proposes to use in this regard.

Contaminated water:

Run-off from the Site which has been in contact with the waste body collected in a drainage channel immediately adjacent to the landfill, which discharges into the evaporation control dam constructed for the purpose.

The quality of this water is to be monitored by the operator and the water shall only be discharged, if acceptable, on instruction of the Responsible Person, or used for dust suppression on the lined portion of the site by the operator.

The floor of the disposal cell must be kept clean and free from any obstruction to ensure that storm-water falling within the cell-area will flow away from the exposed waste at the working face and towards the lowest point of the cell, which will in turn be pumped into the evaporation pond. Suitable pumping equipment is to be supplied by the contractor as part of the equipment for operating and maintaining the site. The pumping equipment shall be kept available on the site and used to ensure that the cell-area is always drained.

All water that has been in contact with waste will be considered to be contaminated, as well as any water with which it comes into contact. The contractor will be required to contain such water in the evaporation pond (from where it will be allowed to evaporate or be used for dust suppression on site) and prevent it from polluting uncontaminated water from areas outside the waste disposal area.

Should water be accumulating in this area, it is to be pumped from the excavations as soon as possible to prevent water from infiltrating the lower parts of the adjacent, previously disposed of, waste body.

Leachate:

The contractor will need to monitor the localised leachate collection. The pumping equipment must be maintained and regularly serviced by the contractor. Provision and operation of adequate back-up portable pump systems when pumps are serviced will be for the Contractors cost. All other pumping equipment required is to be supplied by the contractor as part of the equipment for operating and maintaining the site.

Throughout the operation of the landfill, the primary objective should be to reduce the formation of leachate, with the secondary objective being to manage leachate formed, in an environmentally sound manner.

The evaporation/ leachate collection dam should at all times have a freeboard of 500mm. A fire break perimeter of at least 4m should be maintained to protect the layers/liners installed.

h. Record keeping

The contractor shall maintain detailed daily records of the following aspects and these shall be available for inspection by the engineer/employer at all times:

- Quantity of cover placed
- Quantities of waste handled (Including mass, category and registration details of each vehicle)
- Daily position of waste deposition on site
- Mass of compost produced, used on site, stockpiled or sold
- Complaints lodged
- Accidents
- Site protocol violations
- Breakdowns and stoppages
- Weather stations including minimum and maximum temperature, rainfall, wind speed and direction. Monthly compact disc (CD) backups must also be made available
- Site diary to record unusual incidents
- Leachate and pumping log book, indicating frequency and volumes pumped.

The contractor shall also keep a site instruction book on site.

The supply of all consumables for record keeping, invoices and the operation of the

weighbridges, associated computer equipment, peripherals and the supply of suitable extra heavy duty printers is the responsibility of the contractor. This also includes the maintenance of the weighbridge slip printers and when required the replacement thereof.

1. General maintenance at groundwater monitoring boreholes

The existing monitoring boreholes installed on site shall be adequately marked (painted yellow) at least once per annum. All grass, within a 3m radius, around the boreholes will be cut on a regular basis.

5.15 **Maintenance of the site**

The contractor shall maintain all aspects of the site in order to ensure its smooth and efficient operation and to prevent undue deterioration of any item. The contractor shall bear all maintenance costs other than the costs of materials required as a result of normal wear and tear. These will, subject to prior approval by the engineer, be borne by the employer.

Should it at any stage be evident that a large repair has resulted because the contractor did not take action at an earlier stage, and that the contractor has no good reason for not having taken earlier action, the cost of that repair will be for the contractor's account. In maintaining the site, the contractor will be expected to perform maintenance work on his/her own initiative and without first being instructed to do so by the engineer/employer.

Included in the maintenance of the site are:

a. Scattered waste

The keeping of the **site and its surrounds** neat and clean by the removal of all windblown or scattered refuse and the picking up of all litter emanating from the operation. This must be performed daily. Areas of particular importance are:

- the access road to the landfill and road reserve portions described in Section 5.14(a)
- the entrance and surrounding area
- the public disposal facility
- all site roads
- the area surrounding the working face
- the perimeter fence

b. Buildings

The contractor shall be responsible for the upkeep of the buildings and structures used

by him. This will include, but not be limited to the following:

- repair of any damage or deterioration to any of the buildings, other than normal wear and tear maintenance;
- general housekeeping to ensure that the buildings inside and outside as well as the areas surrounding them are kept clean and neat;
- painting of all buildings and structures (once per annum) using quality approved paint products;
- upkeep and maintenance of gardens and landscaped areas including regular watering (twice per week) of all trees on site
- ensuring clean and hygienic conditions in all toilets, showers, washbasins and kitchen areas.
- maintenance of all wooden doors
- replacement of light bulbs

On termination of the contract, all buildings shall be left in a thoroughly clean and sound condition, to the satisfaction of the engineer.

c. Access road

The contractor shall be responsible for the maintenance of all temporary and permanent access roads (i.e. those roads within the site boundary to provide access to the working face). This work will include the watering of the surface to prevent dust nuisance, the grading and filling in of pot-holes from time to time, the resurfacing of the road with selected graded material or building rubble free from reinforcing and with particle size less than 300mm as well as any other repair work to ensure that access to the working area is provided in a safe and usable condition, to the satisfaction of the engineer. All roads shall be to an all-weather standard.

d. Berms and storm-water drainage channels

The contractor shall be responsible for keeping all berms and storm-water channels in good condition and blockage free, so that they will adequately perform their intended function. Silt accumulating in the storm-water drains shall be removed on a regular basis.

Where required, temporary berms and storm-water drainage channels shall be provided by the contractor to ensure the safe and sound operation of the waste disposal site. Such berms and channels are only to be constructed after consultation with the engineer/employer, in order to ensure that it will not interfere with the long-term development plan for the site.

e. Fences, gates and access control boom

The contractor shall keep the fences and gates of both the perimeter and infrastructure area in good order and shall repair any damage caused to them. All bushes and trees that grow on the line of the security fence are to be removed and the roots killed.

f. Weighbridge

The contractor shall be responsible for the care (upkeep and regular maintenance and adjustment of the weighbridges and associated computer equipment) of the weighbridges and peripherals and any damage caused by misuse or negligence shall be made good by the contractor at his/her own cost. The contractor shall supply all consumables for the operation of the weighbridges, associated computer equipment and peripherals.

The contractor shall install traffic light control (robot)

g. Completed areas

The contractor shall be responsible for the watering of all trees and shrubs planted until such time as they are, in the opinion of the municipality, well enough established not to require further watering. Any erosion furrows and subsidence's which form on intermediate or finally covered disposal areas shall be filled in and re-grassed where applicable.

h. Servitudes

The keeping of all servitudes neat and clean by the removal of all khaki-bos, weeds, blue-gum trees along the fence, windblown litter etc.

i. Fire breaks

The contractor will be required to maintain adequate fire breaks, to the satisfaction of the engineer/employer, in order to prevent fires on site, and to take all other steps as may be required to prevent the outbreak and spreading of fires and to provide and maintain the acceptable levels of firefighting equipment on the site.

j. fire Extinguishers

The contractor shall provide and service all fire extinguishers as per requirement of the chief fire fighter of the Vhembe District Municipality.

5.16 Testing

Routine inspections will be carried out by the engineer/employer to check the contractor's operations for compliance with the requirements of the specification.

5.18 Violation of site protocol

The contractor shall maintain a record and the details of the occurrence of all vehicles that violate the site protocol. Vehicles shall be "blacklisted" from being allowed to dispose of waste at the Lebowakgomo landfill site, or any of the other sites owned by the Capricorn District Municipality, for a period determined by the employer, depending on the violation. A report of the violation is to be given to the vehicle driver and distributed to the driver's direct supervisor and the employer. Types of incidences considered to be a violation, are in accordance with the following site rules as displayed on site:

“SITE RULES FOR THE MAKHADO NEW LANDFILL SITE”
**WASTE LICENSE: GMB- FOR DISPOSAL OF GENERAL AND NON-
HAZARDOUS WASTES**

This landfill site is operated under contract to the Makhado Local Municipality and right of admission is reserved. Violation of site protocol may lead to temporary or permanent expulsion from the waste disposal facility, together with possible prosecution, depending on the nature and / or frequency of the default.

- Only general, dry, non-hazardous wastes may be disposed of on this facility.
- The contractor is legally bound to operate the site strictly according to the operational contract and instructions from the operating contractor's personnel must be adhered to.
- The landfill site and all its facilities are used at the user's own risk.
- All drums and containers will be inspected at the weighbridge prior to disposal at the workface. No sealed containers will be accepted on site.
- Empty containers displaying hazard or warning decals/sticker will not be permitted on this facility.
- Waste is only to be disposed of within the demarcated area or in the designated containers indicated by the operating contractor's personnel. Site users are responsible for off- loading their vehicles and must provide adequate labour and equipment.
- Persons with LDV's or cars making use of the public disposal facility will be required to off-load waste in demarcated containers indicated by the site operator.
- No reclamation / scavenging will be allowed at the landfill workface, or at the public disposal containers.
- Scavenging by vehicle drivers and / or their assistants will lead to blacklisting of their vehicles.
- No open fires or the burning of waste is allowed on the site.
- Speed limits must not be exceeded and traffic rules must be adhered to.

- Road signs must be obeyed.
- Open or partially open trucks or containers must be covered with properly installed nets.
- Children are not allowed to enter the site, unless accompanied by an adult. Neither are they allowed to leave vehicles in areas other than the public disposal area, and also only whilst under adult supervision.
- No vehicles may exceed the legal payloads or have waste stacked in areas not designed to carry waste.
- Vehicle's load mass must be verified whilst still on site.
- Visitors must adhere to all security arrangements on site and users of the facility are not allowed to bring firearms into the security area.
- An administration penalty will be levied if incorrect or misleading information is provided by vehicle drivers.
- No cash transactions will be handled on site."

The employer may from time to time alter the site rules as dictated by conditions on site.

6. PENALTIES

The events or requirements for which penalties shall be applied, and the corresponding amounts of the penalties are as follows:

- a. Failure by the contractor to open or to operate the site on any of the operating days, or closure of the Site for each hour or part thereof during the agreed operating hours:

R1 500, 00 for first hour or part thereof, escalating by R1 000,00 for each further one hour period or part thereof.

- b. Failure by the contractor to adequately cover overnight with material any one area of waste exceeding 5,0m² (excluding limited volumes of waste delivered after hours) for normal waste and any exposure in the case of animal carcasses or similar wastes:

R2 000, 00 for first occurrence, escalating by R1 000,00 for each further occurrence to a maximum of R10 000,00 per occurrence.

- c. Any proven deviation from the operating permit conditions, which includes the "Minimum Requirements for Waste Disposal by Landfill, 1998":

R2 000, 00 for first occurrence, escalating by R1 000, 00 for each further occurrence to a maximum of R10 000, 00 per occurrence.

- d. Inadequate nuisance control like litter control, odour control, dust control, rodent control and vector control:

R2 000, 00 for first occurrence, escalating by R1 000, 00 for each further occurrence to a maximum of R5 000,00 per occurrence.

- e. Vehicles pushed out when stuck on site:

R1 000, 00 for first occurrence, escalating by R500,00 for each further occurrence to a maximum of R5 000,00 per occurrence, plus the cost for any repairs to damaged vehicles as a result of the pushing.

- f. Not caring and maintaining the site including scattered waste, all buildings and structures, access roads, entrance road, berms and storm-water drainage channels, fences, gates and access control boom, weighbridge, completed areas.

R1 000, 00 for first occurrence, escalating by R500, 00 for each further occurrence to a maximum of R5 000,00 per occurrence.

- g. Allowing the disposal of materials not being permitted for disposal according to the Minimum Requirements for Waste Disposal by Landfill 1988, the waste license or the site rules:

R5 000, 00 for first occurrence, escalating by R1 000, 00 for each further occurrence to a maximum of R10 000, 00 per occurrence.

- h. Allowing the disposal of unauthorized waste streams including de-listed waste:

R5 000, 00 for first occurrence, escalating by R1 000, 00 for each further occurrence to a maximum of R10 000,00 per occurrence.

- i. Not excavating the cover material to within 1,0m tolerance on the horizontal dimensions, 300mm on the vertical dimensions and slopes on the sides of excavations steeper than 1 (vertical) : 3 (horizontal):

The construction costs required for the additional cut-and-fill earthworks to ensure that any excavated waste disposal cell is correctly positioned in terms of the overall site development plan, free draining to a pre-determined low point as well as suitable shaped for the construction of liners by means of heavy civil engineering construction equipment.

- j. Developing the natural landform such that, irrespective of the final landform model, the side slope in any part of the landfill exceeds a maximum slope of 1 (vertical) : 3 (horizontal).

The construction costs required for the additional cut-and-fill to ensure the waste body is shaped such that it will not create a threat of potential side failure and will allow for the compaction of the final capping as part of rehabilitation by means of heavy civil engineering construction equipment.

- k. Developing the upper horizontal surface of a cell not to the prescribed slopes of at least 3% and not more than 5%, towards the working face.

The construction costs required for the additional cut-and-fill to ensure the waste body and the finished cover surface shall have a minimum slope of 3% and a maximum slope of 5% and shall be sufficiently uniform to ensure that runoff is encouraged and that the ponding of water cannot take place.

- l. Failure to maintain a 500mm freeboard at all containment dams or sumps, and allowing to overflow.

R10 000,00 for first occurrence, escalating by R5 000,00 for each further occurrence to a maximum of R50 000,00 per occurrence. As well as the remedial costs involved on any environmental contamination.

- m. Employer reserves the right to terminate the contract if the contractor is in breach of contract and fails to rectify such breach of contract after a second written warning was issued to the contractor without the necessary remedial action being taken.

FUNCTIONALITY OF THE PROJECT

PRICE ADJUSTMENTS

A NON-FIRM PRICES SUBJECT TO ESCALATION

1. IN CASES OF CONTRACTS, NON FIRM PRICES WILL BE ADJUSTED (LOADED) WITH THE ASSESSED CONTRACT PRICE ADJUSTMENTS IMPLICIT IN NON FIRM PRICES WHEN CALCULATING THE COMPARATIVE PRICES

2. IN THIS CATEGORY PRICE ESCALATIONS WILL ONLY BE CONSIDERED IN TERMS OF THE FOLLOWING FORMULA:

$$Pa = (1 - \frac{V}{P_t}) \left(D1 \frac{R1_t}{R1_o} + D2 \frac{R2_t}{R2_o} + D3 \frac{R3_t}{R3_o} + D4 \frac{R4_t}{R4_o} \right) + VP_t$$

Where:

Pa	=	The new escalated price to be calculated.
(1-V) Pt	=	85% of the original bid price. Note that Pt must always be the original bid price and not an escalated price.
D1, D2..	=	Each factor of the bid price eg. labour, transport, clothing, footwear, etc. The total of the various factors D1,D2...etc. must add up to 100%.
R1t, R2t.....	=	Index figure obtained from new index (depends on the number of factors used).
R1o, R2o	=	Index figure at time of bidding.
VPt	=	15% of the original bid price. This portion of the bid price remains firm i.e. it is not subject to any price escalations.

3. The following index/indices must be used to calculate your bid price:

Index..... Dated..... Index..... Dated..... Index..... Dated.....

Index..... Dated..... Index..... Dated..... Index..... Dated.....

4. FURNISH A BREAKDOWN OF YOUR PRICE IN TERMS OF ABOVE-MENTIONED FORMULA. THE TOTAL OF THE VARIOUS FACTORS MUST ADD UP TO 100%.

FACTOR (D1, D2 etc. eg. Labour, transport etc.)	PERCENTAGE OF BID PRICE

B PRICES SUBJECT TO RATE OF EXCHANGE VARIATIONS

1. Please furnish full particulars of your financial institution, state the currencies used in the conversion of the prices of the items to South African currency, which portion of the price is subject to rate of exchange variations and the amounts remitted abroad.

PARTICULARS OF FINANCIAL INSTITUTION	ITEM NO	PRICE	CURRENCY	RATE	PORTION OF PRICE SUBJECT TO ROE	AMOUNT IN FOREIGN CURRENCY REMITTED ABROAD
				ZAR=		
				ZAR=		
				ZAR=		
				ZAR=		
				ZAR=		
				ZAR=		

2. Adjustments for rate of exchange variations during the contract period will be calculated by using the average monthly exchange rates as issued by your commercial bank for the periods indicated hereunder: (Proof from bank required)

AVERAGE MONTHLY EXCHANGE RATES FOR THE PERIOD:	DATE DOCUMENTATION MUST BE SUBMITTED TO THIS OFFICE	DATE FROM WHICH NEW CALCULATED PRICES WILL BECOME EFFECTIVE	DATE UNTIL WHICH NEW CALCULATED PRICE WILL BE EFFECTIVE

DECLARATION OF INTEREST

1. No bid will be accepted from persons in the service of the state¹.
2. Any person, having a kinship with persons in the service of the state, including a blood relationship, may make an offer or offers in terms of this invitation to bid. In view of possible allegations of favouritism, should the resulting bid, or part thereof, be awarded to persons connected with or related to persons in service of the state, it is required that the bidder or their authorised representative declare their position in relation to the evaluating/adjudicating authority.
- 3 In order to give effect to the above, the following questionnaire must be completed and submitted with the bid.

3.1 Full Name of bidder or his or her representative:.....

3.2 Identity Number:

3.3 Position occupied in the Company (director, trustee, hareholder²):.....

3.4 Company Registration Number:

3.5 Tax Reference Number:.....

3.6 VAT Registration Number:

3.7 The names of all directors / trustees / shareholders members, their individual identity numbers and state employee numbers must be indicated in paragraph 4 below.

3.8 Are you presently in the service of the state? **YES / NO**

3.8.1 If yes, furnish particulars.

.....

¹MSCM Regulations: "in the service of the state" means to be –

- (a) a member of –
 - (i) any municipal council;
 - (ii) any provincial legislature; or
 - (iii) the national Assembly or the national Council of provinces;
- (b) a member of the board of directors of any municipal entity;
- (c) an official of any municipality or municipal entity;
- (d) an employee of any national or provincial department, national or provincial public entity or constitutional institution within the meaning of the Public Finance Management Act, 1999 (Act No.1 of 1999);
- (e) a member of the accounting authority of any national or provincial public entity; or
- (f) an employee of Parliament or a provincial legislature.

² Shareholder" means a person who owns shares in the company and is actively involved in the management of the company or business and exercises control over the company.

3.9 Have you been in the service of the state for the past twelve months? **YES / NO**

3.9.1 If yes, furnish particulars.....

.....

3.10 Do you have any relationship (family, friend, other) with persons

in the service of the state and who may be involved with the evaluation and or adjudication of this bid?..... **YES / NO**

3.10.1 If yes, furnish particulars.

.....
.....

3.11 Are you, aware of any relationship (family, friend, other) between any other bidder and any persons in the service of the state who may be involved with the evaluation and or adjudication of this bid? **YES / NO**

3.11.1 If yes, furnish particulars

.....
.....

3.12 Are any of the company's directors, trustees, managers, principle shareholders or stakeholders in service of the state? **YES / NO**

3.12.1 If yes, furnish particulars.

.....
.....

3.13 Are any spouse, child or parent of the company's directors trustees, managers, principle shareholders or stakeholders in service of the state? **YES / NO**

3.13.1 If yes, furnish particulars.

.....
.....

3.14 Do you or any of the directors, trustees, managers, principle shareholders, or stakeholders of this company have any interest in any other related companies or business whether or not they are bidding for this contract. **YES / NO**

3.14.1 If yes, furnish particulars:

.....
.....

PREFERENCE POINTS CLAIM FORM IN TERMS OF THE PREFERENTIAL PROCUREMENT REGULATIONS 2022

This preference form must form part of all tenders invited. It contains general information and serves as a claim form for preference points for specific goals.

NB: BEFORE COMPLETING THIS FORM, TENDERERS MUST STUDY THE GENERAL CONDITIONS, DEFINITIONS AND DIRECTIVES APPLICABLE IN RESPECT OF THE TENDER AND PREFERENTIAL PROCUREMENT REGULATIONS, 2022

1. GENERAL CONDITIONS

1.1 The following preference point systems are applicable to invitations to tender:

- the 80/20 system for requirements with a Rand value of up to R50 000 000 (all applicable taxes included); and
- the 90/10 system for requirements with a Rand value above R50 000 000 (all applicable taxes included).

1.2 To be completed by the organ of state

(delete whichever is not applicable for this tender).

- a) The applicable preference point system for this tender is the **90/10** preference point system.
- b) The applicable preference point system for this tender is the **80/20** preference point system.
- c) Either the **90/10 or 80/20 preference point system** will be applicable in this tender. The lowest/highest acceptable tender will be used to determine the accurate system once tenders are received.

1.3 Points for this tender (even in the case of a tender for income-generating contracts) shall be awarded for:

- (a) Price; and
- (b) Specific Goals.

1.4 To be completed by the organ of state:

The maximum points for this tender are allocated as follows:

	POINTS
PRICE	80
SPECIFIC GOALS	20
Total points for Price and SPECIFIC GOALS	100

1.5 Failure on the part of a tenderer to submit proof or documentation required in terms of this tender to claim points for specific goals with the tender, will be interpreted to mean that preference points for specific goals are not claimed.

- 1.6 The organ of state reserves the right to require of a tenderer, either before a tender is adjudicated or at any time subsequently, to substantiate any claim in regard to preferences, in any manner required by the organ of state.

2. DEFINITIONS

- (a) **“tender”** means a written offer in the form determined by an organ of state in response to an invitation to provide goods or services through price quotations, competitive tendering process or any other method envisaged in legislation;
- (b) **“price”** means an amount of money tendered for goods or services, and includes all applicable taxes less all unconditional discounts;
- (c) **“rand value”** means the total estimated value of a contract in Rand, calculated at the time of bid invitation, and includes all applicable taxes;
- (d) **“tender for income-generating contracts”** means a written offer in the form determined by an organ of state in response to an invitation for the origination of income-generating contracts through any method envisaged in legislation that will result in a legal agreement between the organ of state and a third party that produces revenue for the organ of state, and includes, but is not limited to, leasing and disposal of assets and concession contracts, excluding direct sales and disposal of assets through public auctions; and
- (e) **“the Act”** means the Preferential Procurement Policy Framework Act, 2000 (Act No. 5 of 2000).

3. FORMULAE FOR PROCUREMENT OF GOODS AND SERVICES

3.1. POINTS AWARDED FOR PRICE

3.1.1 THE 80/20 OR 90/10 PREFERENCE POINT SYSTEMS

A maximum of 80 or 90 points is allocated for price on the following basis:

$$\begin{array}{ccc} 80/20 & \text{or} & 90/10 \\ P_s = 80 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right) & \text{or} & P_s = 90 \left(1 - \frac{P_t - P_{\min}}{P_{\min}} \right) \end{array}$$

Where

P_s = Points scored for price of tender under consideration

P_t = Price of tender under consideration

P_{\min} = Price of lowest acceptable tender

3.2. FORMULAE FOR DISPOSAL OR LEASING OF STATE ASSETS AND INCOME GENERATING PROCUREMENT

3.2.1. POINTS AWARDED FOR PRICE

A maximum of 80 or 90 points is allocated for price on the following basis:

$$\begin{array}{ccc} 80/20 & \text{or} & 90/10 \end{array}$$

$$P_s = 80 \left(1 + \frac{P_t - P_{max}}{P_{max}} \right) \text{ or}$$

$$P_s = 90 \left(1 + \frac{P_t - P_{max}}{P_{max}} \right)$$

Where

P_s = Points scored for price of tender under consideration
 P_t = Price of tender under consideration
 P_{max} = Price of highest acceptable tender

4. POINTS AWARDED FOR SPECIFIC GOALS

- 4.1. In terms of Regulation 4(2); 5(2); 6(2) and 7(2) of the Preferential Procurement Regulations, preference points must be awarded for specific goals stated in the tender. For the purposes of this tender the tenderer will be allocated points based on the goals stated in table 1 below as may be supported by proof/ documentation stated in the conditions of this tender:
- 4.2. In cases where organs of state intend to use Regulation 3(2) of the Regulations, which states that, if it is unclear whether the 80/20 or 90/10 preference point system applies, an organ of state must, in the tender documents, stipulate in the case of—
- (a) an invitation for tender for income-generating contracts, that either the 80/20 or 90/10 preference point system will apply and that the highest acceptable tender will be used to determine the applicable preference point system; or
 - (b) any other invitation for tender, that either the 80/20 or 90/10 preference point system will apply and that the lowest acceptable tender will be used to determine the applicable preference point system,
- then the organ of state must indicate the points allocated for specific goals for both the 90/10 and 80/20 preference point system.

Table 1: Specific goals for the tender and points claimed are indicated per the table below.

(Note to organs of state: Where either the 90/10 or 80/20 preference point system is applicable, corresponding points must also be indicated as such.)

Note to tenderers: The tenderer must indicate how they claim points for each preference point system.)

The specific goals allocated points in terms of this tender	Number of points allocated (90/10 system) (To be completed by the organ of state)	Number of points allocated (80/20 system) (To be completed by the organ of state)	Number of points claimed (90/10 system) (To be completed by the tenderer)	Number of points claimed (80/20 system) (To be completed by the tenderer)
100% Black ownership (attach CSD detail report)	N/A	10	N/A	
Woman Ownership (attach CSD detail report or Certified copy of Smart ID Card)	N/A	05	N/A	

Disability (Attach Disability letter from a Doctor)	N/A	05	N/A	

DECLARATION WITH REGARD TO COMPANY/FIRM

4.3. Name of company/firm.....

4.4. Company registration number:

4.5. TYPE OF COMPANY/ FIRM

- ☐ Partnership/Joint Venture / Consortium
- ☐ One-person business/sole propriety
- ☐ Close corporation
- ☐ Public Company
- ☐ Personal Liability Company
- ☐ (Pty) Limited
- ☐ Non-Profit Company
- ☐ State Owned Company

[TICK APPLICABLE BOX]

4.6. I, the undersigned, who is duly authorised to do so on behalf of the company/firm, certify that the points claimed, based on the specific goals as advised in the tender, qualifies the company/ firm for the preference(s) shown and I acknowledge that:

- i) The information furnished is true and correct;
- ii) The preference points claimed are in accordance with the General Conditions as indicated in paragraph 1 of this form;
- iii) In the event of a contract being awarded as a result of points claimed as shown in paragraphs 1.4 and 4.2, the contractor may be required to furnish documentary proof to the satisfaction of the organ of state that the claims are correct;
- iv) If the specific goals have been claimed or obtained on a fraudulent basis or any of the conditions of contract have not been fulfilled, the organ of state may, in addition to any other remedy it may have –
 - (a) disqualify the person from the tendering process;
 - (b) recover costs, losses or damages it has incurred or suffered as a result of that person's conduct;
 - (c) cancel the contract and claim any damages which it has suffered as a result of having to make less favourable arrangements due to such cancellation;
 - (d) recommend that the tenderer or contractor, its shareholders and directors, or only the shareholders and directors who acted on a fraudulent basis, be restricted from obtaining business from any organ of state for a period not exceeding 10 years, after the *audi alteram partem* (hear the other side) rule has been applied; and
 - (e) forward the matter for criminal prosecution, if deemed necessary.

CONTRACT FORM - RENDERING OF SERVICES

THIS FORM MUST BE FILLED IN DUPLICATE BY BOTH THE SERVICE PROVIDER (PART 1) AND THE PURCHASER (PART 2). BOTH FORMS MUST BE SIGNED IN THE ORIGINAL SO THAT THE SERVICE PROVIDER AND THE PURCHASER WOULD BE IN POSSESSION OF ORIGINALLY SIGNED CONTRACTS FOR THEIR RESPECTIVE RECORDS.

PART 1 (TO BE FILLED IN BY THE SERVICE PROVIDER)

1. I hereby undertake to render services described in the attached bidding documents to **Makhado Municipality** in accordance with the requirements and task directives / proposals specifications stipulated bid no. **44 OF 2025**. at the price/s quoted. My offer/s remain binding upon me and open for acceptance by the Purchaser during the validity period indicated and calculated from the closing date of the bid.

2. The following documents shall be deemed to form and be read and construed as part of this agreement:
 - (i) Bidding documents, viz
 - Invitation to bid;
 - Tax clearance certificate;
 - Pricing schedule(s);
 - Filled in task directive/proposal;
 - Preference claims for Broad Based Black Economic Empowerment Status Level of Contribution in terms of the Preferential Procurement Regulations 2011;
 - Declaration of interest;
 - Declaration of Bidder's past SCM practices;
 - Certificate of Independent Bid Determination;
 - Special Conditions of Contract;
 - (ii) General Conditions of Contract; and
 - (iii) Other (specify)

3. I confirm that I have satisfied myself as to the correctness and validity of my bid; that the price(s) and rate(s) quoted cover all the services specified in the bidding documents; that the price(s) and rate(s) cover all my obligations and I accept that any mistakes regarding price(s) and rate(s) and calculations will be at my own risk.

4. I accept full responsibility for the proper execution and fulfilment of all obligations and conditions devolving on me under this agreement as the principal liable for the due fulfillment of this contract.

5. I declare that I have no participation in any collusive practices with any bidder or any other person regarding this or any other bid.

6. I confirm that I am duly authorised to sign this contract.

DECLARATION OF BIDDER'S PAST SUPPLY CHAIN MANAGEMENT PRACTICES

- 1 This Municipal Bidding Document must form part of all bids invited.
- 2 It serves as a declaration to be used by municipalities and municipal entities in ensuring that when goods and services are being procured, all reasonable steps are taken to combat the abuse of the supply chain management system.
- 3 The bid of any bidder may be rejected if that bidder, or any of its directors have:
 - a. abused the municipality's / municipal entity's supply chain management system or committed any improper conduct in relation to such system;
 - b. been convicted for fraud or corruption during the past five years;
 - c. willfully neglected, reneged on or failed to comply with any government, municipal or other public sector contract during the past five years; or
 - d. been listed in the Register for Tender Defaulters in terms of section 29 of the Prevention and Combating of Corrupt Activities Act (No 12 of 2004).
- 4 In order to give effect to the above, the following questionnaire must be completed and submitted with the bid.

Item	Question	Yes	No
4.1	Is the bidder or any of its directors listed on the National Treasury's Database of Restricted Suppliers as companies or persons prohibited from doing business with the public sector? (Companies or persons who are listed on this Database were informed in writing of this restriction by the Accounting Officer/Authority of the institution that imposed the restriction after the <i>audi alteram partem</i> rule was applied). The Database of Restricted Suppliers now resides on the National Treasury's website (www.treasury.gov.za) and can be accessed by clicking on its link at the bottom of the home page.	Yes <input type="checkbox"/>	No <input type="checkbox"/>
4.1.1	If so, furnish particulars:		
4.2	Is the bidder or any of its directors listed on the Register for Tender Defaulters in terms of section 29 of the Prevention and Combating of Corrupt Activities Act (No 12 of 2004)? The Register for Tender Defaulters can be accessed on the National Treasury's website (www.treasury.gov.za) by clicking on its link at the bottom of the home page.	Yes <input type="checkbox"/>	No <input type="checkbox"/>
4.2.1	If so, furnish particulars:		
4.3	Was the bidder or any of its directors convicted by a court of law (including a court of law outside the Republic of South Africa) for fraud or corruption during the past five years?	Yes <input type="checkbox"/>	No <input type="checkbox"/>

4.3.1	If so, furnish particulars:		
Item	Question	Yes	No
4.4	Does the bidder or any of its directors owe any municipal rates and taxes or municipal charges to the municipality / municipal entity, or to any other municipality / municipal entity, that is in arrears for more than three months?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
4.4.1	If so, furnish particulars:		
4.5	Was any contract between the bidder and the municipality / municipal entity or any other organ of state terminated during the past five years on account of failure to perform on or comply with the contract?	Yes <input type="checkbox"/>	No <input type="checkbox"/>
4.7.1	If so, furnish particulars:

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This Municipal Bidding Document (MBD) must form part of all bids¹ invited.
- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *per se* prohibition meaning that it cannot be justified under any grounds.
- 3 Municipal Supply Regulation 38 (1) prescribes that a supply chain management policy must provide measures for the combating of abuse of the supply chain management system, and must enable the accounting officer, among others, to:
 - a. take all reasonable steps to prevent such abuse;
 - b. reject the bid of any bidder if that bidder or any of its directors has abused the supply chain management system of the municipality or municipal entity or has committed any improper conduct in relation to such system; and
 - c. cancel a contract awarded to a person if the person committed any corrupt or fraudulent act during the bidding process or the execution of the contract.
- 4 This MBD serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.
- 5 In order to give effect to the above, the attached Certificate of Bid Determination (MBD 9) must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, in submitting the accompanying bid:

(Bid Number and Description)

in response to the invitation for the bid made by:

(Name of Municipality / Municipal Entity)

do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf of: _____ that

(Name of Bidder)

1. I have read and I understand the contents of this Certificate;

2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign, the bid, on behalf of the bidder;
5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:
 - (a) has been requested to submit a bid in response to this bid invitation;
 - (b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities or experience; and
 - (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder
6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement or arrangement with any competitor. However communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.
7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement or arrangement with any competitor regarding:
 - (a) prices;
 - (b) geographical area where product or service will be rendered (market allocation)
 - (c) methods, factors or formulas used to calculate prices;
 - (d) the intention or decision to submit or not to submit, a bid;
 - (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
 - (f) bidding with the intention not to win the bid.
8. In addition, there have been no consultations, communications, agreements or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract

³ **Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill and knowledge in an activity for the execution of a contract.**

10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.

ARTICLE OF AGREEMENT IN TERMS OF SECTION 37(2) OF THE OCCUPATIONAL

HEALTH AND SAFETY ACT, 1993 BETWEEN

MAKHADO MUNICIPALITY

(hereinafter referred to as the

EMPLOYER) AND

.....

.....

.....

herein represented by..... in

his/her capacity as..... duly

authorised by virtue of a resolution dated

..... Attached hereto as Annexure A. of the said

..... (hereinafter referred to as the

CONTRACTOR)

WHEREAS the CONTRACTOR is the mandatory of the EMPLOYER as contemplated in an agreement in respect of

.....

.....

Contract number

AND WHEREAS section 37 of the Occupational Health and Safety act, 1993 (Act 85 of 1993, hereinafter referred to as the ACT), imposes certain powers and duties upon the EMPLOYER.

AND WHEREAS the parties has agreed to enter into an agreement in terms of section 37(2) of the ACT. NOW THEREFORE the parties agree as follows:

1. The Contractor undertakes to acquaint the appropriate officials and employees of the CONTRACTOR with all relevant provisions of the ACT and the regulations promulgated in terms thereof.
2. The CONTRACTOR undertakes that all relevant duties, obligations and prohibitions imposed in terms of the ACT and Regulations will be fully complied with: Provided that should the EMPLOYER prescribe certain arrangements and procedures, that same shall be observed and adhered to by the CONTRACTOR, his officials and employees. The CONTRACTOR shall bear the onus of acquainting

himself/herself/itself with such arrangements and procedures.

3. The CONTRACTOR hereby accepts sole liability for such due compliance with the relevant duties, obligations, prohibitions, arrangements and procedures, if any, imposed by the ACT and Regulations and the EMPLOYER expressly absolves the EMPLOYER from itself being obliged to comply with any of the aforesaid duties, obligations, prohibitions, arrangements and procedures as the case may be.
4. The CONTRACTOR agrees that any fully authorised officials of the EMPLOYER shall be entitled, although not obliged, to take such steps as may be necessary to ensure that the CONTRACTOR has complied with his undertakings as more fully set out in paragraphs 1 and 2 above, which steps may include, but shall not be limited to, the right to inspect any appropriate site or premises occupied by the CONTRACTOR, or to inspect any appropriate records held by the CONTRACTOR or to take such steps if it may deem necessary to remedy the default of the CONTRACTOR at the cost of the CONTRACTOR.
5. The CONTRACTOR shall be obliged to report forthwith to the EMPLOYER any investigation, complaint or criminal charge which may arise as a consequence of the provisions of the ACT and Regulations, pursuant to work performed in terms of this agreement, and shall, on written demand, provide full details in writing of such investigation complaint or criminal charge as the case may be.

THE NATIONAL TREASURY

Republic of South Africa

GOVERNMENT PROCUREMENT: GENERAL CONDITIONS OF CONTRACT

July 2010

GOVERNMENT PROCUREMENT
GENERAL CONDITIONS OF CONTRACT
July 2010

NOTES

The purpose of this document is to:

- (i) Draw special attention to certain general conditions applicable to government bids, contracts and orders; and
- (ii) To ensure that clients be familiar with regard to the rights and obligations of all parties involved in doing business with government.

In this document words in the singular also mean in the plural and vice versa and words in the masculine also mean in the feminine and neuter.

- The General Conditions of Contract will form part of all bid documents and may not be amended.
- Special Conditions of Contract (SCC) relevant to a specific bid, should be compiled separately for every bid (if applicable) and will supplement the General Conditions of Contract. Whenever there is a conflict, the provisions in the SCC shall prevail.

General Conditions of Contract

1. Definitions

1. The following terms shall be interpreted as indicated:
 - 1.1 “Closing time” means the date and hour specified in the bidding documents for the receipt of bids.
 - 1.2 “Contract” means the written agreement entered into between the purchaser and the supplier, as recorded in the contract form signed by the parties, including all attachments and appendices thereto and all documents incorporated by reference therein.
 - 1.3 “Contract price” means the price payable to the supplier under the contract for the full and proper performance of his contractual obligations.
 - 1.4 “Corrupt practice” means the offering, giving, receiving, or soliciting of any thing of value to influence the action of a public official in the procurement process or in contract execution.
 - 1.5 "Countervailing duties" are imposed in cases where an enterprise abroad is subsidized by its government and encouraged to market its products internationally.
 - 1.6 “Country of origin” means the place where the goods were mined, grown or produced or from which the services are supplied. Goods are produced when, through manufacturing, processing or substantial and major assembly of components, a commercially recognized new product results that is substantially different in basic characteristics or in purpose or utility from its components.
 - 1.7 “Day” means calendar day.
 - 1.8 “Delivery” means delivery in compliance of the conditions of the contract or order.
 - 1.9 “Delivery ex stock” means immediate delivery directly from stock actually on hand.
 - 1.10 “Delivery into consignees store or to his site” means delivered and unloaded in the specified store or depot or on the specified site in compliance with the conditions of the contract or order, the supplier bearing all risks and charges involved until the supplies are so delivered and a valid receipt is obtained.
 - 1.11 "Dumping" occurs when a private enterprise abroad market its goods on own initiative in the RSA at lower prices than that of the country of origin and which have the potential to harm the local industries in the

RSA.

- 1.12 "Force majeure" means an event beyond the control of the supplier and not involving the supplier's fault or negligence and not foreseeable. Such events may include, but is not restricted to, acts of the purchaser in its sovereign capacity, wars or revolutions, fires, floods, epidemics, quarantine restrictions and freight embargoes.
- 1.13 "Fraudulent practice" means a misrepresentation of facts in order to influence a procurement process or the execution of a contract to the detriment of any bidder, and includes collusive practice among bidders (prior to or after bid submission) designed to establish bid prices at artificial non-competitive levels and to deprive the bidder of the benefits of free and open competition.
- 1.14 "GCC" means the General Conditions of Contract.
- 1.15 "Goods" means all of the equipment, machinery, and/or other materials that the supplier is required to supply to the purchaser under the contract.
- 1.16 "Imported content" means that portion of the bidding price represented by the cost of components, parts or materials which have been or are still to be imported (whether by the supplier or his subcontractors) and which costs are inclusive of the costs abroad, plus freight and other direct importation costs such as landing costs, dock dues, import duty, sales duty or other similar tax or duty at the South African place of entry as well as transportation and handling charges to the factory in the Republic where the supplies covered by the bid will be manufactured.
- 1.17 "Local content" means that portion of the bidding price which is not included in the imported content provided that local manufacture does take place.
- 1.18 "Manufacture" means the production of products in a factory using labour, materials, components and machinery and includes other related value-adding activities.
- 1.19 "Order" means an official written order issued for the supply of goods or works or the rendering of a service.
- 1.20 "Project site," where applicable, means the place indicated in bidding documents.
- 1.21 "Purchaser" means the organization purchasing the goods.
- 1.22 "Republic" means the Republic of South Africa.
- 1.23 "SCC" means the Special Conditions of Contract.
- 1.24 "Services" means those functional services ancillary to the supply of the goods, such as transportation and any other incidental services, such as installation, commissioning, provision of technical assistance, training, catering, gardening, security, maintenance and other such

obligations of the supplier covered under the contract.

- 1.25 “Written” or “in writing” means handwritten in ink or any form of electronic or mechanical writing.

2. Application

- 2.1 These general conditions are applicable to all bids, contracts and orders including bids for functional and professional services, sales, hiring, letting and the granting or acquiring of rights, but excluding immovable property, unless otherwise indicated in the bidding documents.
- 2.2 Where applicable, special conditions of contract are also laid down to cover specific supplies, services or works.
- 2.3 Where such special conditions of contract are in conflict with these general conditions, the special conditions shall apply.

3. General

- 3.1 Unless otherwise indicated in the bidding documents, the purchaser shall not be liable for any expense incurred in the preparation and submission of a bid. Where applicable a non-refundable fee for documents may be charged.
- 3.2 With certain exceptions, invitations to bid are only published in the Government Tender Bulletin. The Government Tender Bulletin may be obtained directly from the Government Printer, Private Bag X85, Pretoria 0001, or accessed electronically from www.treasury.gov.za

4. Standards

- 4.1 The goods supplied shall conform to the standards mentioned in the bidding documents and specifications.

5. Use of contract documents and information; inspection.

- 5.1 The supplier shall not, without the purchaser’s prior written consent, disclose the contract, or any provision thereof, or any specification, plan, drawing, pattern, sample, or information furnished by or on behalf of the purchaser in connection therewith, to any person other than a person employed by the supplier in the performance of the contract. Disclosure to any such employed person shall be made in confidence and shall extend only so far as may be necessary for purposes of such performance.
- 5.2 The supplier shall not, without the purchaser’s prior written consent, make use of any document or information mentioned in GCC clause 5.1 except for purposes of performing the contract.
- 5.3 Any document, other than the contract itself mentioned in GCC clause 5.1 shall remain the property of the purchaser and shall be returned (all copies) to the purchaser on completion of the supplier’s performance under the contract if so required by the purchaser.
- 5.4 The supplier shall permit the purchaser to inspect the supplier’s records relating to the performance of the supplier and to have them audited by auditors appointed by the purchaser, if so required by the purchaser.

6. Patent rights

- 6.1 The supplier shall indemnify the purchaser against all third-party claims of infringement of patent, trademark, or industrial design rights arising from use of the goods or any part thereof by the purchaser.

7. Performance security

- 7.1 Within thirty (30) days of receipt of the notification of contract award, the successful bidder shall furnish to the purchaser the performance security of the amount specified in SCC.
- 7.2 The proceeds of the performance security shall be payable to the purchaser as compensation for any loss resulting from the supplier's failure to complete his obligations under the contract.
- 7.3 The performance security shall be denominated in the currency of the contract, or in a freely convertible currency acceptable to the purchaser and shall be in one of the following forms:
 - (a) a bank guarantee or an irrevocable letter of credit issued by a reputable bank located in the purchaser's country or abroad, acceptable to the purchaser, in the form provided in the bidding documents or another form acceptable to the purchaser; or
 - (b) a cashier's or certified cheque
- 7.4 The performance security will be discharged by the purchaser and returned to the supplier not later than thirty (30) days following the date of completion of the supplier's performance obligations under the contract, including any warranty obligations, unless otherwise specified in SCC.

8. Inspections, tests and analyses

- 8.1 All pre-bidding testing will be for the account of the bidder.
- 8.2 If it is a bid condition that supplies to be produced or services to be rendered should at any stage during production or execution or on completion be subject to inspection, the premises of the bidder or contractor shall be open, at all reasonable hours, for inspection by a representative of the Department or an organization acting on behalf of the Department.
- 8.3 If there are no inspection requirements indicated in the bidding documents and no mention is made in the contract, but during the contract period it is decided that inspections shall be carried out, the purchaser shall itself make the necessary arrangements, including payment arrangements with the testing authority concerned.
- 8.4 If the inspections, tests and analyses referred to in clauses 8.2 and 8.3 show the supplies to be in accordance with the contract requirements, the cost of the inspections, tests and analyses shall be defrayed by the purchaser.
- 8.5 Where the supplies or services referred to in clauses 8.2 and 8.3 do not comply with the contract requirements, irrespective of whether such supplies or services are accepted or not, the cost in connection with these inspections, tests or analyses shall be defrayed by the supplier.
- 8.6 Supplies and services which are referred to in clauses 8.2 and 8.3 and which do not comply with the contract requirements may be rejected.
- 8.7 Any contract supplies may on or after delivery be inspected, tested or

analyzed and may be rejected if found not to comply with the requirements of the contract. Such rejected supplies shall be held at the cost and risk of the supplier who shall, when called upon, remove them immediately at his own cost and forthwith substitute them with supplies which do comply with the requirements of the contract. Failing such removal the rejected supplies shall be returned at the suppliers cost and risk. Should the supplier fail to provide the substitute supplies forthwith, the purchaser may, without giving the supplier further opportunity to substitute the rejected supplies, purchase such supplies as may be necessary at the expense of the supplier.

- 8.8 The provisions of clauses 8.4 to 8.7 shall not prejudice the right of the purchaser to cancel the contract on account of a breach of the conditions thereof, or to act in terms of Clause 23 of GCC.

9. Packing

- 9.1 The supplier shall provide such packing of the goods as is required to prevent their damage or deterioration during transit to their final destination, as indicated in the contract. The packing shall be sufficient to withstand, without limitation, rough handling during transit and exposure to extreme temperatures, salt and precipitation during transit, and open storage. Packing, case size and weights shall take into consideration, where appropriate, the remoteness of the goods' final destination and the absence of heavy handling facilities at all points in transit.
- 9.2 The packing, marking, and documentation within and outside the packages shall comply strictly with such special requirements as shall be expressly provided for in the contract, including additional requirements, if any, specified in SCC, and in any subsequent instructions ordered by the purchaser.

10. Delivery and documents

- 10.1 Delivery of the goods shall be made by the supplier in accordance with the terms specified in the contract. The details of shipping and/or other documents to be furnished by the supplier are specified in SCC.
- 10.2 Documents to be submitted by the supplier are specified in SCC.

11. Insurance

- 11.1 The goods supplied under the contract shall be fully insured in a freely convertible currency against loss or damage incidental to manufacture or acquisition, transportation, storage and delivery in the manner specified in the SCC.

12. Transportation

- 12.1 Should a price other than an all-inclusive delivered price be required, this shall be specified in the SCC.

13. Incidental services

- 13.1 The supplier may be required to provide any or all of the following services, including additional services, if any, specified in SCC:
- (a) performance or supervision of on-site assembly and/or commissioning of the supplied goods;
 - (b) furnishing of tools required for assembly and/or maintenance of the supplied goods;
 - (c) furnishing of a detailed operations and maintenance manual for each appropriate unit of the supplied goods;

- (d) performance or supervision or maintenance and/or repair of the supplied goods, for a period of time agreed by the parties, provided that this service shall not relieve the supplier of any warranty obligations under this contract; and
- (e) training of the purchaser's personnel, at the supplier's plant and/or on-site, in assembly, start-up, operation, maintenance, and/or repair of the supplied goods.

13.2 Prices charged by the supplier for incidental services, if not included in the contract price for the goods, shall be agreed upon in advance by the parties and shall not exceed the prevailing rates charged to other parties by the supplier for similar services.

14. Spare parts

14.1 As specified in SCC, the supplier may be required to provide any or all of the following materials, notifications, and information pertaining to spare parts manufactured or distributed by the supplier:

- (a) such spare parts as the purchaser may elect to purchase from the supplier, provided that this election shall not relieve the supplier of any warranty obligations under the contract; and
- (b) in the event of termination of production of the spare parts:
 - (i) Advance notification to the purchaser of the pending termination, in sufficient time to permit the purchaser to procure needed requirements; and
 - (ii) following such termination, furnishing at no cost to the purchaser, the blueprints, drawings, and specifications of the spare parts, if requested.

15. Warranty

15.1 The supplier warrants that the goods supplied under the contract are new, unused, of the most recent or current models, and that they incorporate all recent improvements in design and materials unless provided otherwise in the contract. The supplier further warrants that all goods supplied under this contract shall have no defect, arising from design, materials, or workmanship (except when the design and/or material is required by the purchaser's specifications) or from any act or omission of the supplier, that may develop under normal use of the supplied goods in the conditions prevailing in the country of final destination.

15.2 This warranty shall remain valid for twelve (12) months after the goods, or any portion thereof as the case may be, have been delivered to and accepted at the final destination indicated in the contract, or for eighteen (18) months after the date of shipment from the port or place of loading in the source country, whichever period concludes earlier, unless specified otherwise in SCC.

15.3 The purchaser shall promptly notify the supplier in writing of any claims arising under this warranty.

15.4 Upon receipt of such notice, the supplier shall, within the period specified in SCC and with all reasonable speed, repair or replace the defective goods or parts thereof, without costs to the purchaser.

15.5 If the supplier, having been notified, fails to remedy the defect(s) within the period specified in SCC, the purchaser may proceed to take

such remedial action as may be necessary, at the supplier's risk and expense and without prejudice to any other rights which the purchaser may have against the supplier under the contract.

- | | |
|---|---|
| 16. Payment | <p>16.1 The method and conditions of payment to be made to the supplier under this contract shall be specified in SCC.</p> <p>16.2 The supplier shall furnish the purchaser with an invoice accompanied by a copy of the delivery note and upon fulfillment of other obligations stipulated in the contract.</p> <p>16.3 Payments shall be made promptly by the purchaser, but in no case later than thirty (30) days after submission of an invoice or claim by the supplier.</p> <p>16.4 Payment will be made in Rand unless otherwise stipulated in SCC.</p> |
| 17. Prices | <p>17.1 Prices charged by the supplier for goods delivered and services performed under the contract shall not vary from the prices quoted by the supplier in his bid, with the exception of any price adjustments authorized in SCC or in the purchaser's request for bid validity extension, as the case may be.</p> |
| 18. Contract amendments | <p>18.1 No variation in or modification of the terms of the contract shall be made except by written amendment signed by the parties concerned.</p> |
| 19. Assignment | <p>19.1 The supplier shall not assign, in whole or in part, its obligations to perform under the contract, except with the purchaser's prior written consent.</p> |
| 20. Subcontracts | <p>20.1 The supplier shall notify the purchaser in writing of all subcontracts awarded under this contracts if not already specified in the bid. Such notification, in the original bid or later, shall not relieve the supplier from any liability or obligation under the contract.</p> |
| 21. Delays in the supplier's performance | <p>21.1 Delivery of the goods and performance of services shall be made by the supplier in accordance with the time schedule prescribed by the purchaser in the contract.</p> <p>21.2 If at any time during performance of the contract, the supplier or its subcontractor(s) should encounter conditions impeding timely delivery of the goods and performance of services, the supplier shall promptly notify the purchaser in writing of the fact of the delay, its likely duration and its cause(s). As soon as practicable after receipt of the supplier's notice, the purchaser shall evaluate the situation and may at his discretion extend the supplier's time for performance, with or without the imposition of penalties, in which case the extension shall be ratified by the parties by amendment of contract.</p> <p>21.3 No provision in a contract shall be deemed to prohibit the obtaining of supplies or services from a national department, provincial department, or a local authority.</p> <p>21.4 The right is reserved to procure outside of the contract small quantities or to have minor essential services executed if an emergency arises, the</p> |

supplier's point of supply is not situated at or near the place where the supplies are required, or the supplier's services are not readily available.

21.5 Except as provided under GCC Clause 25, a delay by the supplier in the performance of its delivery obligations shall render the supplier liable to the imposition of penalties, pursuant to GCC Clause 22, unless an extension of time is agreed upon pursuant to GCC Clause 21.2 without the application of penalties.

21.6 Upon any delay beyond the delivery period in the case of a supplies contract, the purchaser shall, without canceling the contract, be entitled to purchase supplies of a similar quality and up to the same quantity in substitution of the goods not supplied in conformity with the contract and to return any goods delivered later at the supplier's expense and risk, or to cancel the contract and buy such goods as may be required to complete the contract and without prejudice to his other rights, be entitled to claim damages from the supplier.

22. Penalties

22.1 Subject to GCC Clause 25, if the supplier fails to deliver any or all of the goods or to perform the services within the period(s) specified in the contract, the purchaser shall, without prejudice to its other remedies under the contract, deduct from the contract price, as a penalty, a sum calculated on the delivered price of the delayed goods or unperformed services using the current prime interest rate calculated for each day of the delay until actual delivery or performance. The purchaser may also consider termination of the contract pursuant to GCC Clause 23.

23. Termination for default

23.1 The purchaser, without prejudice to any other remedy for breach of contract, by written notice of default sent to the supplier, may terminate this contract in whole or in part:

- (a) if the supplier fails to deliver any or all of the goods within the period(s) specified in the contract, or within any extension thereof granted by the purchaser pursuant to GCC Clause 21.2;
- (b) if the Supplier fails to perform any other obligation(s) under the contract; or
- (c) if the supplier, in the judgment of the purchaser, has engaged in corrupt or fraudulent practices in competing for or in executing the contract.

23.2 In the event the purchaser terminates the contract in whole or in part, the purchaser may procure, upon such terms and in such manner as it deems appropriate, goods, works or services similar to those undelivered, and the supplier shall be liable to the purchaser for any excess costs for such similar goods, works or services. However, the supplier shall continue performance of the contract to the extent not terminated.

23.3 Where the purchaser terminates the contract in whole or in part, the purchaser may decide to impose a restriction penalty on the supplier by prohibiting such supplier from doing business with the public sector for a period not exceeding 10 years.

23.4 If a purchaser intends imposing a restriction on a supplier or any

person associated with the supplier, the supplier will be allowed a time period of not more than fourteen (14) days to provide reasons why the envisaged restriction should not be imposed. Should the supplier fail to respond within the stipulated fourteen (14) days the purchaser may regard the intended penalty as not objected against and may impose it on the supplier.

23.5 Any restriction imposed on any person by the Accounting Officer / Authority will, at the discretion of the Accounting Officer / Authority, also be applicable to any other enterprise or any partner, manager, director or other person who wholly or partly exercises or exercised or may exercise control over the enterprise of the first-mentioned person, and with which enterprise or person the first-mentioned person, is or was in the opinion of the Accounting Officer / Authority actively associated.

23.6 If a restriction is imposed, the purchaser must, within five (5) working days of such imposition, furnish the National Treasury, with the following information:

- (i) the name and address of the supplier and / or person restricted by the purchaser;
- (ii) the date of commencement of the restriction
- (iii) the period of restriction; and
- (iv) the reasons for the restriction.

These details will be loaded in the National Treasury's central database of suppliers or persons prohibited from doing business with the public sector.

23.7 If a court of law convicts a person of an offence as contemplated in sections 12 or 13 of the Prevention and Combating of Corrupt Activities Act, No. 12 of 2004, the court may also rule that such person's name be endorsed on the Register for Tender Defaulters. When a person's name has been endorsed on the Register, the person will be prohibited from doing business with the public sector for a period not less than five years and not more than 10 years. The National Treasury is empowered to determine the period of restriction and each case will be dealt with on its own merits. According to section 32 of the Act the Register must be open to the public. The Register can be perused on the National Treasury website.

24. Anti-dumping and countervailing duties and rights

24.1 When, after the date of bid, provisional payments are required, or anti-dumping or countervailing duties are imposed, or the amount of a provisional payment or anti-dumping or countervailing right is increased in respect of any dumped or subsidized import, the State is not liable for any amount so required or imposed, or for the amount of any such increase. When, after the said date, such a provisional payment is no longer required or any such anti-dumping or countervailing right is abolished, or where the amount of such provisional payment or any such right is reduced, any such favourable difference shall on demand be paid forthwith by the contractor to the State or the State may deduct such amounts from moneys (if any) which may otherwise be due to the contractor in regard to supplies or services which he delivered or rendered, or is to deliver or render in terms of the contract or any other contract or any other amount which

may be due to him

25. Force Majeure

- 25.1 Notwithstanding the provisions of GCC Clauses 22 and 23, the supplier shall not be liable for forfeiture of its performance security, damages, or termination for default if and to the extent that his delay in performance or other failure to perform his obligations under the contract is the result of an event of force majeure.
- 25.2 If a force majeure situation arises, the supplier shall promptly notify the purchaser in writing of such condition and the cause thereof. Unless otherwise directed by the purchaser in writing, the supplier shall continue to perform its obligations under the contract as far as is reasonably practical, and shall seek all reasonable alternative means for performance not prevented by the force majeure event.

26. Termination for insolvency

- 26.1 The purchaser may at any time terminate the contract by giving written notice to the supplier if the supplier becomes bankrupt or otherwise insolvent. In this event, termination will be without compensation to the supplier, provided that such termination will not prejudice or affect any right of action or remedy which has accrued or will accrue thereafter to the purchaser.

27. Settlement of Disputes

- 27.1 If any dispute or difference of any kind whatsoever arises between the purchaser and the supplier in connection with or arising out of the contract, the parties shall make every effort to resolve amicably such dispute or difference by mutual consultation.
- 27.2 If, after thirty (30) days, the parties have failed to resolve their dispute or difference by such mutual consultation, then either the purchaser or the supplier may give notice to the other party of his intention to commence with mediation. No mediation in respect of this matter may be commenced unless such notice is given to the other party.
- 27.3 Should it not be possible to settle a dispute by means of mediation, it may be settled in a South African court of law.
- 27.4 Mediation proceedings shall be conducted in accordance with the rules of procedure specified in the SCC.
- 27.5 Notwithstanding any reference to mediation and/or court proceedings herein,
- (a) the parties shall continue to perform their respective obligations under the contract unless they otherwise agree; and
 - (b) the purchaser shall pay the supplier any monies due the supplier.

28. Limitation of liability

- 28.1 Except in cases of criminal negligence or willful misconduct, and in the case of infringement pursuant to Clause 6;
- (a) the supplier shall not be liable to the purchaser, whether in contract, tort, or otherwise, for any indirect or consequential loss or damage, loss of use, loss of production, or loss of profits or interest costs, provided that this exclusion shall not apply to any obligation of the supplier to pay penalties and/or damages to the purchaser; and

		(b) the aggregate liability of the supplier to the purchaser, whether under the contract, in tort or otherwise, shall not exceed the total contract price, provided that this limitation shall not apply to the cost of repairing or replacing defective equipment.
29. Governing language	29.1	The contract shall be written in English. All correspondence and other documents pertaining to the contract that is exchanged by the parties shall also be written in English.
30. Applicable law	30.1	The contract shall be interpreted in accordance with South African laws, unless otherwise specified in SCC.
31. Notices	31.1	Every written acceptance of a bid shall be posted to the supplier concerned by registered or certified mail and any other notice to him shall be posted by ordinary mail to the address furnished in his bid or to the address notified later by him in writing and such posting shall be deemed to be proper service of such notice
	31.2	The time mentioned in the contract documents for performing any act after such aforesaid notice has been given, shall be reckoned from the date of posting of such notice.
32. Taxes and duties	32.1	A foreign supplier shall be entirely responsible for all taxes, stamp duties, license fees, and other such levies imposed outside the purchaser's country.
	32.2	A local supplier shall be entirely responsible for all taxes, duties, license fees, etc., incurred until delivery of the contracted goods to the purchaser.
	32.3	No contract shall be concluded with any bidder whose tax matters are not in order. Prior to the award of a bid the Department must be in possession of a tax clearance certificate, submitted by the bidder. This certificate must be an original issued by the South African Revenue Services.
33. National Industrial Participation Programme (NIP)	33.1	The NIP Programme administered by the Department of Trade and Industry shall be applicable to all contracts that are subject to the NIP obligation.
34 Prohibition of Restrictive practices	34.1	In terms of section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, an agreement between, or concerted practice by, firms, or a decision by an association of firms, is prohibited if it is between parties in a horizontal relationship and if a bidder (s) is / are or a contractor(s) was / were involved in collusive bidding (or bid rigging).
	34.2	If a bidder(s) or contractor(s), based on reasonable grounds or evidence obtained by the purchaser, has / have engaged in the restrictive practice referred to above, the purchaser may refer the matter to the Competition Commission for investigation and possible imposition of administrative penalties as contemplated in the Competition Act No. 89 of 1998.

- 34.3 If a bidder(s) or contractor(s), has / have been found guilty by the Competition Commission of the restrictive practice referred to above, the purchaser may, in addition and without prejudice to any other remedy provided for, invalidate the bid(s) for such item(s) offered, and / or terminate the contract in whole or part, and / or restrict the bidder(s) or contractor(s) from conducting business with the public sector for a period not exceeding ten (10) years and / or claim damages from the bidder(s) or contractor(s) concerned.
