## LOUIS TRICHARDT: CBD & RESIDENTIAL AREAS

10 October 2008

Residents are informed that there will no water in Louis Trichardt Extension and the adjacent areas that receive water from Albasini Water Treatment Works. This is due to vandalism on the power supply cables that occurred last night at the Bulk Water Pump Station 3.

Mobile Tankers and tanks will be providing water to the affected area and mobile tanks will be placed at strategic points. Meanwhile technicians are working on the problem which may be resolved by the afternoon.

Supply will resume late in the afternoon today the 10<sup>th</sup> October 2008. We request communities to bear with the municipality for any inconvenience that might result from the unexpected shortage of water.
